New Centers Of Global Evangelicalism In Latin America And Africa:

New Centers of Global Evangelicalism in Latin America and Africa Stephen Offutt, 2015-02-26 This book shows that new centers of Christianity have taken root in the global south Although these communities were previously poor and marginalized Stephen Offutt illustrates that they are now socioeconomically diverse internationally well connected and socially engaged Offutt argues that local and global religious social forces as opposed to other social economic or political forces are primarily responsible for these changes World Christianity Lalsangkima Pachuau, 2018-07-17 Christianity is vibrant and growing in the non western majority world and Christianity is changing as a result Pachuau surveys the current trending approaches to recognizing and investigating world Christianity and explores the salient features of the demographic changes that mark a measurable shift in the center of gravity from the northwest part of the globe to the southern continents This shift is not just geographical World Christianity is ultimately about the changing and diversifying character of Christianity and a renewed recognition of the dynamic universality of Christian faith itself Christianity is a shared religion in that people of different cultures and societies make it their own while being transformed by it Christianity is translatable and adaptable to all cultures while challenging each with its transformative power Pachuau also charts the theological reestablishment of the missionary enterprise founded on understandings of God's mission in the world mission Dei a mission of cross cultural gospel diffusion for missionary advocates in the majority world but one of near neighbor missional engagement for the contagious Charismatic Christianity of the majority world This book is both a descriptive study and a thoughtful analysis of world Christianity's demographics life representation and thought The book also gives an account of the historical emergence of World Christianity and its theological characteristics using a methodology that stresses the productive tension between the universal and particular in understanding a fundamentally adaptable Christian faith To Bring the Good News to All Nations Lauren Frances Turek, 2020-05-15 When American evangelicals flocked to Latin America Africa Asia and Eastern Europe in the late twentieth century to fulfill their Biblical mandate for global evangelism their experiences abroad led them to engage more deeply in foreign policy activism at home Lauren Frances Turek tracks these trends and illuminates the complex and significant ways in which religion shaped America's role in the late Cold War world In To Bring the Good News to All Nations she examines the growth and influence of Christian foreign policy lobbying groups in the United States beginning in the 1970s assesses the effectiveness of Christian efforts to attain foreign aid for favored regimes and considers how those same groups promoted the imposition of economic and diplomatic sanctions on those nations that stifled evangelism Using archival materials from both religious and government sources To Bring the Good News to All Nations links the development of evangelical foreign policy lobbying to the overseas missionary agenda Turek's case studies Guatemala South Africa and the Soviet Union reveal the extent of Christian influence on American foreign policy from the late 1970s through the 1990s Evangelical policy work also reshaped the lives of Christians overseas and contributed to a

reorientation of U S human rights policy Efforts to promote global evangelism and support foreign brethren led activists to push Congress to grant aid to favored yet repressive regimes in countries such as Guatemala while imposing economic and diplomatic sanctions on nations that persecuted Christians such as the Soviet Union This advocacy shifted the definitions and priorities of U S human rights policies with lasting repercussions that can be traced into the twenty first century The Routledge Research Companion to the History of Evangelicalism Andrew Atherstone,David Ceri Jones,2018-07-11

Evangelicalism an inter denominational religious movement that has grown to become one of the most pervasive expressions of world Christianity in the early twenty first century had its origins in the religious revivals led by George Whitefield John Wesley and Jonathan Edwards in the middle decades of the eighteenth century With its stress on the Bible the cross of Christ conversion and the urgency of mission it quickly spread throughout the Atlantic world and then became a global phenomenon Over the past three decades evangelicalism has become the focus of considerable historical research This research companion brings together a team of leading scholars writing broad ranging chapters on key themes in the history of evangelicalism It provides an authoritative and state of the art review of current scholarship and maps the territory for future research Primary attention is paid to English speaking evangelicalism but the volume is transnational in its scope Arranged thematically chapters assess evangelicalism and the Bible the atonement spirituality revivals and revivalism worldwide mission in the Atlantic North and the Global South eschatology race gender culture and the arts money and business interactions with Roman Catholicism Eastern Christianity and Islam and globalization It demonstrates evangelicalism s multiple and contested identities in different ages and contexts The historical and thematic approach of this research companion makes it an invaluable resource for scholars and students alike worldwide Religion and Contemporary Politics Timothy J. Demy,Jeffrey M. Shaw Ph.D.,2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography Routledge Handbook of Brazilian Politics Barry Ames,2018-10-25 With contributions from leading international scholars this Handbook offers the most rigorous and up

Netherlands Yearbook of International Law 2018 Janne E. Nijman, Wouter G. Werner, 2019-10-17 This volume of the Netherlands Yearbook of International Law explores the many faces of populism and the different manifestations of the relationship between populism and international law Rather than taking the so called populist backlash against globalisation international law and governance at face value this volume aims to dig deeper and wonders What backlash are we talking about really While populism is contextual and contingent on the society in which it arises and its relationship with international law and institutions thus has differed likewise this volume assists in our examination of what we find so dangerous about populism and problematic in its relationship with international law The Netherlands Yearbook of International Law was first published in 1970 It offers a forum for the publication of scholarly articles in a varying thematic area of public international law div

Missionary Interests David Golding, Christopher Cannon Jones, 2024-04-15 In *Missionary Interests* David Golding and Christopher Cannon Jones bring together works about Protestant and Mormon missionaries in the nineteenth and twentieth centuries charting new directions for the historical study of these zealous evangelists for their faith Despite their sectarian differences both groups of missionaries shared notions of dividing the world categorically along the lines of race status and relative exoticism and both employed humanitarian outreach with designs to proselytize American missionaries occupied liminal spaces between proselytizer and proselytized feminine and masculine colonizer and colonized Taken together the chapters in *Missionary Interests* dismantle easy characterizations of missions and conversion and offer an overlooked juxtaposition between Mormon and Protestant missionary efforts in the nineteenth and twentieth centuries

The Business Turn in American Religious History Amanda Porterfield, Darren Grem, John Corrigan, 2017-07-19 Business has received little attention in American religious history although it has profound implications for understanding the sustained popularity and ongoing transformation of religion in the United States This volume offers a wide ranging exploration of the business aspects of American religious organizations The authors analyze the financing production marketing and distribution of religious goods and services and the role of wealth and economic organization in

sustaining and even shaping worship charity philanthropy institutional growth and missionary work Treating religion and business holistically their essays show that American religious life has always been informed by business practices Laying the groundwork for further investigation the authors show how American business has functioned as a domain for achieving religious goals Indeed they find that religion has historically been more powerful when interwoven with business Chapters on Mormon enterprise Jewish philanthropy Hindu gurus Native American casinos and the wedding of business wealth to conservative Catholic social teaching demonstrate the range of new studies stimulated by the business turn in American religious history Other chapters show how evangelicals joined neo liberal economic practice and right wing politics to religious fundamentalism to consolidate wealth and power and how they developed marketing campaigns and organizational strategies that transformed the American religious landscape Included are essays exposing the moral compromises religious organizations have made to succeed as centers of wealth and influence and the religious beliefs that rationalize and justify these compromises Still others examine the application of business practices as a means of sustaining religious institutions and expanding their reach and look at controversies over business practices within religious organizations and the adjustments such organizations have made in response Together the essays collected here offer new ways of conceptualizing the interdependence of religion and business in the United States establishing multiple paths for further study of their intertwined historical development *Encyclopedia of Christianity in the Global South* Mark A. Lamport, 2018-06-01

Christianity has transformed many times in its 2 000 year history from its roots in the Middle East to its presence around the world today From the mid twentieth century onward the presence of Christianity has increased dramatically in Asia Africa and Latin America and the majority of the world s Christians are now nonwhite and non Western The *Encyclopedia of Christianity in the Global South* traces both the historical evolution and contemporary themes in Christianity in more than 150 countries and regions The volumes include maps images and a detailed timeline of key events The phrases Global Christianity and World Christianity are inadequate to convey the complexity of the countries and regions involved this encyclopedia with its more than 500 entries aims to offer rich perspectives on the varieties of Christianity where it is growing how the spread of Christianity shapes the faith in various regions and how the faith is changing worldwide *African Evangelicalism and the Transformation of Africa* Jacob K. Olupona, 2025 What is the impact of Evangelical Christianity on Africa Evangelical Christianity and the Transformation of Africa will answer this question Evangelical Christianity is manifesting into a strong presence in African states perhaps more than in any other place in the world Given its exponential rise in Africa it is increasingly clear that Christianity in its evangelical form is exercising significant influence in virtually all spheres of life defining the essence of public and private life Drawing on original works from leading scholars in humanities and social science disciplines such as Afe Adogame Yolanda Covington Ward Jacob Olupona Derek Peterson Shobana Shankar and Nimi Wariboko this volume endeavors to produce a comprehensive study of Evangelical Christianity in Africa

paying careful attention to disciplinary interconnections as well as social cultural political and economic forces Among other subjects essays in this volume address examples of evangelical subjectivity and identity formation against the current political backdrops of Nigeria Kenya the Democratic Republic of Congo and other nations While the book works to convey the core elements of the evangelical movement across the African continent it recognizes the importance of its diverse manifestations giving additional focus to Pentecostal groups and their distinct social cultural and political engagements At the same time it works to correct the unwarranted saturation of attention given to Pentecostal Charismatic movements in recent scholarship and expands the study of evangelicalism in Africa into the sphere of mainline churches and extra ecclesial organizations Authors also reflect on the ways that the African diaspora and transnational ties contribute to the make up of contemporary African evangelicalism In short this edited volume examines how the centrality of religion in African affairs political economic cultural ideological domains has contributed to turning Evangelical Christianity into the official face of the Christian Church in Africa today Religious Soft Diplomacy and the United Nations Sherrie M. Steiner,James T. Christie,2021-04-21 The engagement of religious diplomacy within the United Nations systems has become increasingly important for achieving the Sustainable Development Goals The editors argue that effective religious diplomacy must reflect the great diversity of religious and spiritual expressions within human communities The editors argue that this can best be achieved through a worldview shift within the United Nations systems Religious engagement in the United Nations systems has been understandably constrained by limited and formal organizational structures and conventions However the existing patterns of engagement mitigate against the very goals they seek to achieve The editors argue that expanded yet measured religious inclusion will strengthen social cohesion in the global community Contributors demonstrate how communities become stronger when marginalized minority voices are included in public discourse The editors further argue that governance has a responsibility to ensure a safe environment for this interaction The editors propose that the United Nations adopt the posture of loyal opposition that is inherent in parliamentary democracies to serve as a guideline for expanded religious engagement The contributors advance this proposal with illustrations from multiple contexts that address a diverse array of social problems from perspectives rooted in theory and practice Boundary-Breaking Mission Simone Mulieri Twibell,2023-08-15 How should we bear witness to the gospel in a postmodern world How do we navigate the turbulent waters of social cultural and religious difference in a pluralistic society How can we minister effectively in multicultural contexts and swim against the unconscious currents of ethnocentrism These questions compel the church to thoroughly reconsider its priorities and rethink its strategy of public engagement Amidst the diversity and the complexity of our world such an examination can rekindle our prophetic imagination and equip us ever more fully in God s kingdom purposes This book reexamines the church s mission and makes specific applications in numerous areas of contemporary concern including outreach to the religious unaffiliated digital natives people of other faiths immigrants and the poor Blood Entanglements
