A. Hobson, 2010-10-04 First published in 1914 and reissued with a new introduction in 1992 *Work and Wealth* is a seminal vision of Hobson's liberal utopian ideals which desired to demonstrate how economic and social reform could transform existing society into one in which the majority of the population as opposed to a small elite could find fulfillment Hobson attacked conventional economic wisdom which made a division between the cost of production and the utility derived from consumption Far from being necessarily arduous Hobson argued that work had the potential to bring about immense utility and enrichment The qualitative humanist work argues in favour of a new form of capitalism to minimise cost and maximise utility *Culture, Participation and Policy in the Municipal Public Park* Abigail Gilmore, 2024-01-12 This book concerns the values and practices of participation in municipal public parks and the connections they have with cultural policy urbanism and social life Adopting a critical cultural policy lens it identifies the park as a mundane but extraordinarily treasured place for the production and exchange of cultural values regulation resistance and the practising of citizenship Drawing on extensive mixed methods research on everyday participation in diverse local cultural ecosystems in England and Scotland the book examines the social lives of parks and their users and the important public values that are generated through their common stewardship and usership It presents case studies of parks and co located museums as cultural public spheres which promote both commoning and commodification These are contextualized by histories of municipal parkmaking from the nineteenth century to the present and related to the making of local government and to other civic and cultural institutions The book highlights contemporary issues of austerity marketisation and de municipalisation within local government in the context of urban development It positions the public park as fundamental to democratic cultural governance and makes the case for the primacy of public trust ownership and park equity in safeguarding the right to the city *Charlotte Mary Yonge* Clare Walker Gore, Clemence Schultze, Julia Courtney, 2022-11-28 This interdisciplinary collection of essays explores the life and work of Charlotte M Yonge a highly influential and popular nineteenth century writer who is emerging from a long period of critical neglect Its wide ranging chapters capture the scope and quality of current work in Yonge studies addressing the full range of her prolific literary output from her best selling novels to her nature writing biographies and letters Considering themes from gender disability and empire to Tractarianism secularism and the idea of progress these essays
