New Developments On E Public Procurement:

e-Transformation: Enabling New Development Strategies Nagy K. Hanna, 2009-11-11 Could information and communication technology ICT become the transformative tool for a new style of global development Could ICT promote knowledge based innovation driven and smart adaptive participatory development As countries seek a way out of the present period of economic contraction they are trying to weave ICT into their development strategies in the same way organizations have learned to use ICT to transform their business models and strategies This integration offers a new path to development that is responsive to the challenges of our times In e Transformation Nagy Hanna identifies the key ingredients for the strategic integration of ICT into national development with examples from around the world He draws on his rich experience of over 35 years at the World Bank and other aid agencies to outline the strategic options involved in using ICT to maximize developmental impact transforming public service institutions networking businesses for innovation and competitiveness and empowering communities for social inclusion and poverty reduction He identifies the key interdependencies in e transformation and offers a holistic framework to tap network effects and synergies across all elements of the process including leadership cyber policies institutions human resources technological competencies information infrastructure and ICT uses for government business and society Integrating analytical insights and practical applications across the fields of development political economy public administration entrepreneurship and technology management the author candidly argues that e transformation like all bold ideas faces implementation challenges In particular the aspiration reality gap needs to be systematically addressed if ICT enabled innovation and transformation is to become a development practice E transformation is first and foremost about thinking strategically and creatively about the options made possible by the information technology revolution in the context of globalization To this end the author provides tools and best practices designed to nurture innovation select entry points prioritize among competing demands and sequence and scale up He outlines the roles of all participants political managerial entrepreneurial social and technical whose leadership is essential for successful innovation

E-Procurement Management for Successful Electronic Government Systems Ordóñez de Pablos, Patricia, Lovelle, Juan Manuel Cueva, Gayo, José Emilio Labra, Tennyson, Robert D., 2012-09-30 As governments search for the best ways to restyle their services the E Government field continues to attract interest from public administrators politicians academics and citizens As a result new topics such as e procurement have become core factors in public sector development by providing way to better serve citizens and businesses in our digital economy E Procurement Management for Successful Electronic Government Systems enhances the understanding and collaboration in e government and the role of information technologies in supporting the development of improved services for citizens By analyzing recent developments in theory and practices as well as providing fresh ideas and research this reference source aims to bridge the gap between academia industry and government

OECD Public Governance Reviews Public Procurement in Kazakhstan

Reforming for Efficiency OECD,2019-12-06 This publication outlines the substantial progress made in improving Kazakhstan's procurement system most notably implementing e procurement Drawing on international good practices the review includes policy recommendations to help the government in Kazakhstan achieve further necessary reforms to meet international standards

Developments in Information & Knowledge Management for Business Applications Natalia Kryvinska,Michal Greguš,2022-03-29 This book discusses incentives for information management usage of information for existing practices to become more efficient the acceleration of executive learning and an evaluation of the information management impact on an organization In today's COVID influenced volatile world companies face a variety of challenges And the most crucial of them are high levels of uncertainty and risk Therefore companies are constantly under pressure to provide sustainable solutions Accordingly previously gathered knowledge and information can be extremely helpful for this purpose Hence this fourth book of our subseries continues to accentuate on different approaches which point to the importance of continuous progress in structural management for sustainable growth It highlights the permanent gain and usage of information We would be pleased if the book can stimulate further research on this subject matter
