plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ s executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the most scandal ridden in penal history according to a host of published news stories for 20 years Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars **Origin on Trial** Christopher H. A. Ting, 2023-01-27

Do you know about the dark secrets in big evolution concerning the origin of the universe Do you know that the Bible sets God s signature on his creation in the beginning Not all fields of science are created equal Some deal with past history rather than the present Einstein s theory of gravity as curved spacetime is observable science But some scientists use it with particle physics to tell a story of the origin of the universe But can anyone see the moment of the Big Bang Scientists themselves say the Big Bang model has big problems The data they use to support their best model about the origin of the universe can also be used to undermine it They started with A to build the model but their data don t agree with A Is there something fundamentally wrong Great scientists make mistakes in science too Hawking and others have made profound statements but they don t always make sense Big evolution has holes It relies on deep time as god of the gap Modern science began with Christians like Kepler and Galileo They believed biblical creation had happened It s time to bring science back to its genesis and the origin back to church *The End of Umno? **Embracing the Darkness** John Callow, 2017-10-30 As dusk fell on a misty evening in 1521 Martin Luther hiding from his enemies at Wartburg Castle found himself seemingly tormented by demons hurling walnuts at his bedroom window In a fit of rage the great reformer threw at the Devil the inkwell from which he was preparing his colossal translation of the Bible A belief like Luther's in the supernatural and in black magic has been central to European cultural life for 3000 years From the Salem witch trials to the macabre novels of Dennis Wheatley from the sadistic persecution of eccentric village women to the seductive sorceresses of TV's *Charmed* and from Derek Jarman's punk film *Jubilee* to Ken Russell's *The Devils* John Callow brings the twilight world of the witch mage and necromancer to vivid and fascinating life He takes us into a shadowy landscape where in an age before modern drugs the onset of sudden illness was readily explained by malevolent spellcasting And where dark winding country lanes could terrify by night as the hoot of an owl or shriek of a fox became the desolate cries of unseen spirits Witchcraft has profoundly shaped the western imagination and endures in the forms of modern day Wicca and paganism *Embracing the Darkness* is an enthralling account of this fascinating aspect of the western cultural experience

The Qumran Con Raphael Golb, 2024-06-17 Why did Professor Norman Golb of the Oriental Institute need to be silenced Why did a small clique monopolize access and publication rights to the Dead Sea Scrolls for more than four decades Why does the truth matter about where the scrolls came from In this documented memoir Raphael Golb exposes the inside story of the Dead Sea Scrolls controversy and its scandals He describes how he himself became involved in the controversy and ended up fighting to stay out of Rikers Island For over seventy years the true historical significance of the scrolls has been obscured by the institutional influence of a threatened scholarly establishment Never were the stakes made clearer than when powerful Manhattan DA Robert Morgenthau took action to protect the reputation of well connected scroll figures both in New York and across the United States Raphael Golb's memoir of his journey through the system in a case that almost reached the Supreme Court poses the question of where we stand with the First Amendment today While reigniting the great debate over who wrote the scrolls Golb's account also sheds light on broader issues involving academic revolutions censorship and how easily power can be abused in a democratic society Institutions and museums international conferences and books may ostracize the scholar who transmits a new message A crisis emerges Eventually the new paradigm gradually gains adherents and replaces the old Joel Kraemer 2012 essay on Norman Golb
