The Refugee Crisis and Religion Luca Mavelli, Erin Wilson, 2016-12-01 The current refugee crisis sweeping Europe and much of the world closely intersects with largely neglected questions of religion Moving beyond discussions of religious differences what can we learn about the interaction between religion and migration Do faith based organisations play a role within the refugee regime How do religious traditions and perspectives challenge and inform current practices and policies towards refugees This volume gathers together expertise from academics and practitioners as well as migrant voices in order to investigate these interconnections It shows that reconsidering our understanding and approaches to both could generate creative alternative responses to the growing global migration crisis Beginning with a discussion of the secular religious divide and how it shapes dominant policy practices and counter approaches to displacement and migration the book then goes on to explore and deconstruct the dominant discourse of the Muslim refugee as a threat to the secular Christian West The discussion continues with an exploration of Christian and Islamic traditions of hospitality showing how they challenge current practices of securitization of migration and concludes with an investigation of the largely unexplored relation between gender religion and migration Bringing together leading and emerging voices from across academia and practice in the fields of International Relations migration studies philosophy religious studies and gender studies this volume offers a unique take on one of the most pressing global problems of our time

Religions, Nations, and Transnationalism in Multiple Modernities Patrick Michel,Adam Possamai,Bryan S.

Turner,2017-04-20 This edited book explores the impact of globalisation on the relationship between religion and politics religion and nation religion and nationalism and the impact that transnationalism has on religious groups In a post Westphalian and transnational world with increased international communication and transportation a plethora of new religious recompositions religions now take part in a network society that cuts across borders This collection through its analysis of historical and contemporary case studies explores the growth of both national and transnational religious movements and their dealings with the various versions of modernity that they encounter It considers trends of religious revitalisation and secularisation and processes of nationalism and transnationalism through the prism of the theory of multiple modernities acknowledging both its pluralist world view but also the argument that its definition of modernity is often so inclusive as to lose coherence Providing a cutting edge take on 21st century religion and globalization this volume is a key read for all scholars of religion secularisation and transnationalism Brigham Young and the Expansion of the

Mormon Faith Thomas G. Alexander,2019-05-02 As president of the Church of Jesus Christ of Latter day Saints and Utah s first territorial governor Brigham Young 1801 77 shaped a religion a migration and the American West He led the Saints to Utah guided the establishment of 350 settlements and inspired the Mormons as they weathered unimaginable trials and hardships Although he generally succeeded some decisions especially those regarding the Mormon Reformation and the Black Hawk War were less than sound In this new biography historian Thomas G Alexander draws on a lifetime of research to provide an evenhanded view of Young and his leadership Following the murder in 1844 of church founder Joseph Smith Young bore a heavy responsibility ensuring the survival and expansion of the church and its people Alexander focuses on Young s leadership his financial dealings his relations with non Mormons his families and his own deep religious conviction Brigham Young and the Expansion of the Mormon Faith addresses such controversial issues as the practice of polygamy Young himself had fifty five wives relations and conflicts between Mormons and Indians and the circumstances and aftermath of the horrific events of Mountain Meadows in 1857 Although Young might have done better Alexander argues that he bore

no direct responsibility for the tragedy Young relied on the counsel of his associates and at times the Mormon people pushed back to prevent him from implementing changes In some cases such as polygamy and the doctrine of blood atonement the church leadership eventually rejected his views Yet on the whole Brigham Young emerges as a multifaceted human figure and as a prophet revered by millions of LDS members an inspired leader who successfully led his people to a distant land where their community expanded and flourished

On the Word of a Jew Nina Caputo, Mitchell B. Hart, 2019-01-14 Fourteen essays examining the dynamics of trust and mistrust in Jewish history from biblical times to today What if anything does religion have to do with how reliable we perceive one another to be When and how did religious difference matter in the past when it came to trusting the word of another In today s world we take for granted that being Jewish should not matter when it comes to acting or engaging in the public realm but this was not always the case The essays in this volume look at how and when Jews were recognized as reliable and trustworthy in the areas of jurisprudence medicine politics academia culture business and finance As they explore issues of trust and mistrust the authors reveal how caricatures of Jews move through religious political and legal systems While the volume is framed as an

exploration of Jewish and Christian relations it grapples with perceptions of Jews and Jewishness from the biblical period to today from the Middle East to North America and in Ashkenazi and Sephardi traditions Taken together these essays reflect on the mechanics of trust and sometimes mistrust in everyday interactions involving Jews Highly readable and compelling this volume marks a broadly significant contribution to Jewish studies through the underexplored dynamic of trust Rebekah Klein Pej ov author of *Mapping Jewish Loyalties in Interwar Slovakia* An exemplary compendium on how to engage with a major concept trust while providing load of gripping new information new theorization of otherwise well covered material and meticulous attention to textual and sociological sources Gil Anidjar author of *Blood A Critique of Christianity* *The Faithful Scientist* Christopher P. Scheitle, 2023-10-24 Reveals biases within scientific PhD training programs against emerging scientists who embrace a religious faith and the ramifications for science Science is often viewed as antithetical to religion and it is true that scientists particularly those who work at universities are generally much less religious than the average American adult So what is it like to be a religious individual pursuing an advanced education and career in science Featuring engaging interviews and survey data from over 1 300 PhD students in the natural and social sciences *The Faithful Scientist* shows that the core challenge is not contending with contradictions between faith based beliefs and scientific knowledge Instead it is the bias budding scientific practitioners face from their colleagues if they are religious These dynamics are important for science as a field and ultimately for those who engage with or benefit from the results of scientific research There are real benefits to fostering diversity in science which may lead to more useful discoveries for populations who have generally not been the focus of research And women Black and Latino people tend in general to be more religious than their white male peers meaning that diversifying the gender ethnic and racial composition of the scientific workforce likely requires diversifying the religious composition too This book offers vital empirical data that provide insight into what it means to support and foster religious diversity in science **Living without God: A Multicultural Spectrum of Atheism** Sanjit Chakraborty, Anway Mukhopadhyay, 2022-11-16 This book deals with the intricate issue of approaching atheism methodologically as well as conceptually from the perspective of cultural pluralism What does atheism mean in different cultural contexts Can this term be applied appropriately to different religious discourses which conceptualize God gods Goddess goddesses and also godlessness in hugely divergent ways Is my God the same as yours If not then how can your atheism be the same as mine In other words this volume raises the question Is it not high time that we proposed a comparative study of atheism s alongside that of religions rather than believing that atheism is centered in the Western experience Apart from answering these questions the book highlights the much needed focus on the philosophical negotiations between atheism theism and agnosticism The fine chapters collected here present pluralist negotiations with the notion of atheism and its ethical theological literary and scientific corollaries Previously published in *Sophia* Volume 60 issue 3 September 2021 Chapters Religious Conversion and Loss of Faith Cases of Personal Paradigm

Managing Diversity In Singapore: Policies And Prospects Mathews Mathew, Wai Fong Chiang, 2016-05-11 Singapore society is increasingly becoming diverse During the first few decades of nation building policies were designed to homogenise aspects of Singaporean society while enshrining principles to allow restricted amounts of diversity Fast forward to the present and fifty years after independence the number of areas where diversity is profoundly apparent remains copious and its manifestations more varied This book provides an updated account on the tensions posed by diversity in Singapore and how this is being managed primarily by the state through policies and programmes but also by communities who attempt to negotiate these tensions Such an enquiry is crucial especially at this juncture when the nation is finding ways to embrace the different forms of diversity brought about through external impetuses as well as manage internal reactions from the various communities The book chapters highlight important considerations if Singapore's diversity management strategies will hold promise for the future

Religion and International Relations in the Middle East Sotiris Roussos, 2020-12-10 The volume has

Stating the Sacred Michael J. Walsh, 2020-02-25 China s constitution explicitly refers to its sovereign domain as sacred territory Why does an avowedly secular state make such a claim and what does this suggest about the relations between religion and the nation state Focusing primarily on China Stating the Sacred offers a novel approach to nation state formation arguing that its most critical element is how the state sacralizes the nation Michael J Walsh explores the religious and political dimensions of Chinese state ideology making the case that the sacred is a constitutive part of modern China He examines the structural connection among texts constitutions legal codes national histories ostensibly universal and normative categories race religion citizenship freedom human rights and territoriality the integrity of sovereignty and control over resources and people showing how they are bound together by the sacred Considering a variety of what he refers to as theopolitical techniques Walsh argues that nation states undertake sacralization in order to legitimate the violence of establishing and expanding their sovereignty Ultimately territorialization is a form of sacralization and the foundational role of the sacred makes all nation states religious states Stating the Sacred offers new ways of understanding China s approach to legality control of the populace religious freedom human rights and the structuring of international relations and it raises existential questions about the fundamental nature of the nation state

Method and Theory in the Study of Religion: Working Papers from Hannover Steffen Führling, 2017-07-03 Since the downfall of the phenomenology of religion as the leading paradigm in the study of religion in the 1960s theoretical and methodological discussions surrounding the nature and identity of the study of religion as an academic discipline have proliferated The essays included in this volume approach these debates from a variety of angles Based on a series of talks held at the University of Hannover over the last few years the essays are intended to be understood as diagnostic works in progress and thus as working papers all of which strive to point out important problems and perspectives in the field of

Constitutions, Religion and Politics in Asia Dian A. H. Shah,2017-10-26 As religious polarisation in society deepens political actors and policy makers have begun to struggle with questions on the role of the dominant religion and how religion influences constitutional commitments and development By focusing on Indonesia Malaysia and Sri Lanka Constitutions Religion and Politics in Asia demonstrates how constitution making and the operation of constitutional

arrangements involving religion cannot be separated from the broader political dynamics of society. Although constitutions establish legal and political structures of government institutions and provide tools for rights protection, they do not operate in a vacuum divorced from the games of power and the political realities surrounding them. Here Shah sets out how constitutions operate and evolve and demonstrates how constitutional provisions can produce unintended consequences over time. A vital new source of scholarship for students and scholars of law and religion and comparative constitutional law and those interested in issues of constitutionalism and legal and political history in Asia.
