to Singapore society and what might be the likely responses to such challenges In this book Singapore is a case study of a global city facing the challenges of developed world modernity in frequently acute ways *Sacred Reality, Digital Simulation* Enrico Beltramini, 2025-07-29 This study explores the relationship between the sacred and the virtual emphasizing the sacred as a divinely dependent consecrated space activated through ritual mediating between the profane and the holy The central argument is that the virtual is fundamentally incompatible with the ritual form a concept developed by Romano Guardini and others including Joseph Ratzinger which holds that the sacred is not merely acknowledged but made present through ritualized actions that require tangible participatory engagement Even if the virtual realm were acknowledged as real and retained both the bodily presence of the faithful and the Divine Presence the rite would still be ineffective Virtuality prevents the proper enactment of the rite rendering it ineffective At its core the ritual form is performative embodied and consecratory It requires physical presence material elements and a structured sequence of gestures symbols and words that together make the divine encounter possible Their absence in virtual spaces disrupts ritual form compromising its sacramental function *A History of Ship Launches and Their Ceremonies* George Hodgkinson, 2023-10-31 This is an interesting and informative book about a shipbuilding process that might be considered routine Far from it This fine book is full of centuries of launching methods ceremonies superstitions and mishaps PowerShips Throughout history man has been performing rituals at the launch of a new ship to seek supernatural or divine protection for his ship and those who will sail in her The form of the ritual varies according to local custom and religion from the breaking of a coconut to the release of doves to the role of astrologers in choosing an auspicious day for the launch But the sentiment that lies behind all launching ceremonies is fear At the moment of launching a new ship a seafarer is alert to any sign that his ship is not sound He is superstitious and seeks reassurance that his ship and those who will sail in her will be protected The rites of blood sacrifice and libations performed by the ancient Babylonians and Greeks are well evidenced The evolution of this practice into today's tradition of breaking a bottle of wine against the bow of a ship before launch still symbolising sacrifice is explored as well as the now widely practised custom of inviting ladies to name and launch new ships **New Ecclesial Ministry** Zeni Fox, 2002 In this revised edition of her groundbreaking original volume Zeni Fox emphasizes the crucial relationship between lay ecclesial ministers and the Church's response to them in light of the many developments in recent years Written in a clear crisp style the book is divided into three parts Part one describes the present reality both sociological research about who these new lay professionals are and a review of the ways in which theologians are reflecting upon this new phenomenon The second part explores the new reality from the standpoint of tradition including Scripture the documents of Vatican II and the work of U S bishops The final part assesses this reality in light of the tradition and outlines steps needed to more fully integrate lay leaders into the fabric of the Church *Christian Nationalism and Democracy in Ghana* Jeffrey Haynes, 2025-06-10 This book investigates the impact of Christian nationalism on democracy in Ghana arguing

that proponents of a specific Christian worldview seek to remake the country according to their values and beliefs Christian nationalism is a significant religious and political ideology in several African countries not only Ghana but also Zambia and Nigeria In Ghana prominent Christian nationalists encouraged by sections of the American Christian Right cultivate political influence with powerful political elites and by developing a high media profile to promote their views and increase their numbers of followers The book examines specific examples of Christian nationalism s impact on Ghana s democracy the national cathedral as a symbol of national unity and social cohesion anti Muslim pronouncements threatening inter faith harmony and attacks on Ghana s LGBTQ community Overall the book argues that Christian nationalism is a specific threat to Ghana s three decade long liberal democracy with the aim of undermining the constitutional equality and human rights of some Ghanaians in favour of a specific Christian worldview This book will be of interest to researchers of religion and politics in Africa with Ghana serving as an important case study for those interested in the regional impact of Christian nationalism

Catechetics from A to Z John F. Murphy, Arlene Wrigley Murphy, 1982 *Religion and Ritual in Ancient Egypt* Emily Teeter, 2011-06-13 This book is a vivid reconstruction of the practical aspects of ancient Egyptian religion Through an examination of artefacts and inscriptions the text explores a variety of issues For example who was allowed to enter the temples and what rituals were performed therein Who served as priests How were they organized and trained and what did they do What was the Egyptians attitude toward death and what happened at funerals How did the living and dead communicate In what ways could people communicate with the gods What impact did religion have on the economy and longevity of the society This book demystifies Egyptian religion exploring what it meant to the people and society The text is richly illustrated with images of rituals and religious objects Presence of the Cross in Public Spaces Marta Ordon, Piotr Stanisz, Michał Zawisław, 2017-03-07 The judgments of the European Court of Human Rights in the case of Lautsi vs Italy 3 November 2009 and 18 March 2011 served as a catalyst for the debate on the presence of the cross in the public space in a number of European states What are the effects of this debate What is the meaning attributed to so called negative religious freedom viewed in relation to the right to manifest religion and protect tradition and culture Answers to these and related questions are provided in this volume by experienced contributors who adopt diversified research perspectives and viewpoints The analyses presented here concern not only the established democracies of Western Europe but also post communist states Owing to the multifaceted approach thus offered the book will prove to be helpful in distinguishing the implications of respect for the freedom of thought conscience and religion from the consequences of diversified constitutional norms adopted in individual states and also from subjective expectations **Air-Conditioned Nation Revisited: Essays on Singapore Politics** Cherian George, 2023-04-27 Think of Singapore instead as the Air Conditioned Nation a society with a unique blend of comfort and central control where people have mastered their environment but at the cost of individual autonomy and at the risk of unsustainability Air Conditioned Nation Revisited is an anthology of essays on Singapore politics

by Cherian George It draws upon his influential collection *Singapore The Air Conditioned Nation* 2000 on the country's politics of comfort and control and from *Singapore Incomplete* 2017 on its underdeveloped democracy Updated for the impending transition to a new generation of leaders this 20th anniversary edition of *Air Conditioned Nation* offers critical reflections on continuity and change in Singapore's unique political culture
