Religious Education of the Child M. Fethullah Gülen, 2007 *The Training of the Twig* Cyprian Leycester Drawbridge, 1906 **Hints to Parents on the Religious Education of Children** Gardiner Spring, 1835 *The Child and His Religion* George Ellsworth Dawson, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1909 edition Excerpt CHAPTER III CHILDREN S INTEREST IN THE BIBLE In the preceding chapters I have aimed to suggest a certain background philosophy of human life which I believe should be the starting point in religious education together with the elements of the religious nature with which such education primarily has to do I shall next try to apply the facts and principles thus suggested to a study of the subjectmatter of religious education as drawn from the Bible The Bible and religious education It is of course a theoretical as well as a practical demand of the Christian religion that the Bible shall be a principal source of religious culture material The reasonableness of this demand is not apt to be questioned by anyone who thinks seriously upon the subject Whatever may be thought of Christianity as a type of religion there can be no question that the civilization we live in is intimately identified with it Nor can there be any question that Christianity in its origin nature and historical development has depended upon the Bible So that neither Christianity nor Christian civilization can be accounted for without a knowledge of the spirit and content of this book The children of any given generation of Christians can come to their full heritage not merely of religious beliefs but also of literary ethical social and political ideals and usages that have grown up along with Christianity only by being made thoroughly familiar with the Bible This establishes the claim of the Bible to a generous recognition as a great primary source of ideals facts and principles necessary to a proper understanding and appropriation of the content of Christian civilization Such recognition is quite independent of religious considerations **Sermons on the Religious Education of Children** Philip Doddridge, 1806 **Hints to Parents** Gardiner Spring, 1833 *Children, Catholicism and Religious Education* Patricia Kieran, Anne Hession, 2005 Gives an overview and critical analysis of some major aspects of a
