Remembrance Of Things I Forgot A Novel:

Remembrance of Things I Forgot Bob Smith, 2011-06-09 It's safe to say your relationship is in trouble if the only way you can imagine solving your problems is by borrowing a time machine. In 2006 comic book dealer John Sherkston has decided to break up with his physicist boyfriend Taylor Esgard on the very day Taylor announces he's finally perfected a time machine for the U.S. government. John travels back to 1986 where he encounters Junior, his younger, more innocent self. When Junior starts to flirt, John wonders how to reveal his identity. In you only with less hair and problems you can't imagine. He also meets up with the younger Taylor and this unlikely trio teams up to plot a course around their future relationship troubles, prevent John's sister from making a tragic decision and stop George W. Bush from becoming president. In this wickedly comic cross-country time-bending journey, John confronts his own and the nation's blunders, learning that a second chance at changing things for the better also brings new opportunities to screw them up. Through edgy humor, time travel and droll one-liners, Bob Smith examines family dysfunction, suicide, New York City and recent American history while effortlessly blending domestic comedy with science fiction. Part acidic political satire, part wild comedy and part poignant social scrutiny, *Remembrance of Things I Forgot* is an uproarious adventure filled with sharp observations about our recent past. Gelfuso, 2025-08-26 For fans of *The Ministry of Time* and *The Midnight Library*, a sweeping unforgettable novel moving from pre-WWII Germany to Cold War era America to the mysterious time space, a library filled with books containing the memories of those who bore witness to history. Nuremberg 1938. On the night of Kristallnacht, eleven-year-old Lisavet Levy is hidden by her father from approaching forces in a mysterious place called the time space, a library where all the memories of the past are stored inside of books. When her father doesn't return for her, she becomes trapped, spending her adolescence walking through the memories of those who lived before. When she discovers that living timekeepers are entering the time space to destroy memories and maintain their preferred version of history, Lisavet sets about trying to salvage the past, creating her own book of lost memories. Until one day in 1949 when she meets an American timekeeper named Ernest Duquesne who is intent on keeping her from her task. What ensues sets her on a course to change history and the time space itself forever. Boston 1965. Amelia Duquesne is mourning the death of her uncle and guardian Ernest when she's approached by Moira, the enigmatic head of the CIA's highly secretive Temporal Reconnaissance Program. Moira tells her about the existence of the time space, accessed only by specially designed watches whose intricate mechanisms have been lost to time, and enlists her
