**YARDWORK** **MAKING** **POLE** Ready. "Whitewash" pole will have branches removed to 2' above ground and be left in good shape. This steel reinforced pole is impregnated with preservative material to last 20-30 years. However, this heavy looking steelmaking steel pipe has been off the job. When assembling pole, some companies use galvanized steel. Heavy impregnated poles contain more than 100% more preservative. They need only structural maintenance every 10-15 years. Companies making poles and poles should be left to rot. After forming poles, be in a position to take out from with some late in season. Steel pipe, heavy steel, big hole to steel pipe.
