NEWBLE University of Sheffield England The International Handbook of Research in Medical Education is a review of
current research findings and contemporary issues in health sciences education The orientation is toward research evidence
as a basis for informing policy and practice in education Although most of the research findings have accrued from the study
of medical education the handbook will be useful to teachers and researchers in all health professions and others concerned
with professional education The handbook comprises 33 chapters organized into six sections Research Traditions Learning
The Educational Continuum Instructional Strategies Assessment and Implementing the Curriculum The research orientation
of the handbook will make the book an invaluable resource to researchers and scholars and should help practitioners to
identify research to place their educational decisions on a sound empirical footing THE FIELD OF RESEARCH IN MEDICAL
EDUCATION The discipline of medical education began in North America more than thirty years ago with the founding of the
first office in medical education at Buffalo New York by George Miller in the early 1960s Soon after large offices were
established in medical schools in Chicago University of Illinois Los Angeles University of Southern California and Lansing
Michigan State University All these first generation offices mounted master's level programs in medical education and many
of their graduates went on to found offices at other schools **Monthly Catalogue, United States Public Documents**
