*Van Gogh and the Seasons* Sjraar van Heugten, 2018-03-06 A new look at the ways van Gogh represented the seasons and the natural world throughout his career The changing seasons captivated Vincent van Gogh 1853-90 who saw in their unending cycle the majesty of nature and the existence of a higher force *Van Gogh and the Seasons* is the first book to explore this central aspect of van Gogh's life and work Van Gogh often linked the seasons to rural life and labor as men and women worked the land throughout the year From his depictions of peasants and sowers to winter gardens riverbanks orchards and harvests he painted scenes that richly evoke the sensory pleasures and deprivations particular to each season This stunning book brings to life the locales that defined his tumultuous career from Arles where he experienced his most crucial period of creativity to Auvers-sur-Oise where he committed suicide It looks at van Gogh's interpretation of nature the religious implications of the seasons in his time and how his art was perceived against the backdrop of various symbolist factions antimaterialist debates and esoteric beliefs in fin de siècle Paris The book also features revealing extracts from the artist's correspondence and artworks from his own collection that provide essential context to the themes in his work Breathtakingly illustrated and featuring informative essays by Sjraar van Heugten Joan Greer and Ted Gott *Van Gogh and the Seasons* shines new light on the extraordinary creative vision of one of the world's most beloved artists *Starry Night* Martin Bailey, 2018-08-27 *Starry Night* is a fully illustrated account of Van Gogh's time at the asylum in Saint-Rémy Despite the challenges of ill health and asylum life Van Gogh continued to produce a series of masterpieces cypresses wheatfields olive groves and sunsets He wrote very little about the asylum in letters to his brother Theo so this book sets out to give an impression of daily life behind the walls of the asylum of Saint-Paul-de-Mausole and looks at Van Gogh through fresh eyes with newly discovered material ***Van Gogh's Cypresses*** Susan Alyson Stein, 2023-05-15 Vincent van Gogh 1853-1890 immortalized the cypress tree in signature images that have become synonymous with his fiercely original power of expression This richly illustrated publication illuminates the backstory of his invention for the first time from his initial investigations of the motif in benchmark drawings from Arles to his realization of their full evocative potential in such iconic canvases as *The Starry Night* and *Wheat Field with Cypresses* painted at the asylum in Saint-Rémy Susan Alyson Stein retraces the Dutch artist's inspired response to the flamelike evergreens as they gained ground in his works and artistic thinking over the course of his sojourn in the South of France The volume provides further insight into Van Gogh's creative process through a technical study focused on two celebrated works from the artist's epic painting campaign of June 1889 The visual and literary heritage of the cypresses is featured in a compilation of images and excerpts from nineteenth-century poetry novels and travel writing many translated into English for the first time *Living with Vincent van Gogh* Martin Bailey, 2019-06-11 Vincent van Gogh was a restless soul He spent his twenties searching for a vocation and once he had determined to become an artist he remained a traveller always seeking fresh places for the inspiration and opportunities he

needed to create his work *Living with Vincent van Gogh* tells the story of the great artist's life through the lens of the places where he lived and worked including Amsterdam London Paris and Provence and examines the impact of these cityscapes and landscapes on his creative output Featuring artworks unpublished archival documents and contemporary landscape photography this book provides unique insight into one of the most important artists in history **Vincent Van Gogh**
