How Ideas Change Markets Julia Hildermeier, 2016

Lithium-Ion Cells Yuri Koshtyal, Alexander Rumyantsev, 2024-12-24 A large quantity of articles and books have been published on the designated topics However most of the literary sources describe the results of scientific articles on the synthesis and study of perspective materials reveal circuit and design solutions for constructing control systems and manufacturing batteries and are educational materials At the same time a small part of the published sources includes the following descriptions of materials produced industrially and used in the LIC manufacturing process demonstrations of the industrially produced LIC energy and power parameters analysis of the characteristics of manufactured miniature lithium ion cells solid state LICs lithium metal cells and all solid state cells as well as others Considering the popularity of the discussed topics one can hope to find detailed information on the Internet Indeed modern search engines make it possible to locate a sufficiently large number of relevant documents However while conducting such research we encountered the following challenges the data are somewhat fragmented and their systematization and structuring are required search results do not always meet search queries For instance data that were relevant to the topic were found but they did not match the query as accumulated data grow the search time for new information extends the choice of search engine and location different countries affects search results the data are not indexed in search engines although the correct keywords and website were requested the information disappears due to website updates and the found data require additional processing For example many presentations show changes in the shape of the discharge curves depending on the discharge current strength In addition however Ragone plots are necessary for a correct comparison and therefore the mathematical processing of presented results is required Thus this book was written to systematize and structure information on industrially produced materials for LIC manufacturing and industrially produced and promising LICs and lithium metal rechargeable cells for various applications

EV - Electric Vehicles Come Home Dale Stubbart, In my first book on Electric Cars I covered those which were available in the US In my new book I decided to cover the world I also venture into Electric Planes and EVTOLS Electric Vertical Takeoff and Landing machines Even though EVs are very interesting you might get bored after the 100th or so To relieve your boredom I inserted stories

about my visits from a couple of outer space aliens who are very interested in Electric Cars Who says you can't mix research books with sci fi and humor I start with the most popular EVs I cover many parts of the globe And I cover lesser known Electric cars Some places around the world don't have good roads or the roads are too crowded There electric motorcycles rickshaws and other vehicles are more popular than electric cars And did you know that there's an electric skateboard Electric Cars come in several models Sedans SUVs Crossovers Hatchbacks etc There are even little electric bubble cars And there's a Amphibious E Tricycle Camper Now is a good time to get into an EV there's availability You'll get good range And you'll save money on gas and maintenance Besides bans on ICE vehicles internal combustion engine petrol powered cars are coming Maybe not tomorrow but soon And supermost of all owning an EV is cool and the wave of the future And you want to get into the action now because you want to ride the crest of the wave Some people are still worried about what happens if the battery dies I cover that Good news not a problem I also cover converting your car to an EV or rather hiring someone to do that for you and EV Rentals I conclude the book with what it would take to own an EV Dealership My EV choices and statements by World Leaders on EVs I evaluate the more popular cars and provide a blank evaluation form so you can make your own evaluations This book is packed with information but I keep it light so you won't get bored Actually that's not true I kept it light so that I wouldn't get bored
