Renault Twingo 1999:

The Big Book of Tiny Cars Russell Hayes, 2021-11-23 Richly illustrated and entertainingly written *The Big Book of Tiny Cars* presents lively profiles of the automotive world's most famous and infamous microcars and subcompacts from 1901 to today. From tiny homes to little lending libraries and even tiny food people everywhere are resetting the premium they put on size. Fact is the automotive industry has a tiny history going back to the car's earliest days. Beginning with the Curved Dash Oldsmobile and continuing through prewar classics such as the Austin Seven and Hanomag Kommissbrot, *The Big Book of Tiny Cars* is truly international in scope. Witness diminutive cars like the Bond Minicar and the BMW Isetta introduced to fuel-deprived postwar Europe and continue through the classic 1950s microcars and 70s subcompacts right up to today's tiny cars and electric vehicles (EVs) from the likes of Smart and Fiat. In addition to iconic curiosities like the frog-like Goggomobil, the futuristic Sebring Vanguard Citicar and the three-wheeled Reliant Robin, you'll read about more familiar classics like the VW Beetle, Mini Cooper and Crosley Super Sport. Other manufacturers represented include Honda, Datsun, Mitsubishi, Trabant, Heinkel, Renault and Messerschmitt to name a few. Each car is profiled with an entertaining and informative history and a fact box. Imagery includes archival photos, period ads and modern photography. In all, more than 100 cars are included from the weird to the sublime. Gas, diesel or electric, tiny cars have a rich and curious heritage reflective of motorists' concerns for their pocketbook, the environment or both. *The Big Book of Tiny Cars* is your ultimate collection of microcars, minicars, bubble cars, kei cars, subcompacts and compacts that have been built, sold and driven all over the globe for 120 years.

Cars Stephen Bayley, 2012-02-20 Sources are eclectic; results mixed, but one thing is certain: car design is being forced up an ever-tightening spiral of creativity. These machines are memorials of our tastes, yearnings and capabilities. They have layers of meaning and can, as Henry Ford knew, be read like a book if only you know how. The story of the car is the story of how the objects of industry became a medium of artistic expression. This book tells that story in a series of case studies which reveal national characteristics: American flair, German technical suprematism, French vernacular chic, gorgeous Italian sculpture, English antiquarianism, Japanese ingenuity, Swedish responsibility. Cars featured appear in chronological date order from the 1908 Ford Model T to the 2003 BMW 5 Series. The chosen cars will be specially photographed in a uniform style and reproduced in very textured 4-colour b/w so as to distance this book from the clichés and conventions of specialist automotive publishing and to highlight form and shape. Each picture will be accompanied by a short critical essay including essential historical material together with colourful anecdote and quotations as well as a persuasive aesthetic appraisal of each vehicle. This lavish and beautifully designed book is the gift book for all car enthusiasts and design aficionados.
