

ENGINE IMMOBILISER

Immobiliser warning light

This prevents the vehicle being driven by anyone not in possession of the vehicle's coded ignition key.

Any work on or modification to the engine immobiliser system (computers, wiring, etc.) may be dangerous. Work must be carried out by qualified RENAULT network personnel.

Operating principle

The vehicle is automatically protected for a few seconds after the key is removed from the ignition.

If the vehicle does not recognise the ignition key code, warning light **I** will flash continuously and the engine cannot be started.

- **System operation indicator light**

When the ignition is switched on, warning light **I** comes on for approximately three seconds and then goes out. The vehicle has recognised the code. You can then start the engine.

- **Vehicle protection indicator light**

A few seconds after the ignition has been switched off, indicator light **I** will flash continuously.

The vehicle will not be protected until the key has been taken out of the ignition.

- **Operating fault warning light**

After the ignition has been switched on, if warning light **I** remains continuously lit or continues to flash, this indicates an operating fault in the system.

In all cases, it is essential to contact a RENAULT Dealer. Only RENAULT Dealers are qualified to repair the engine immobiliser.

If the coded ignition key is faulty, use the second key (supplied with the vehicle). If you do not have access to this, it is essential to contact a RENAULT Dealer. Only RENAULT Dealers are authorised to repair the engine immobiliser system.

Renault Master Ii Manual

IM Harris

Renault Master Ii Manual:

Renault R5 & Le Car, 1975-1983 Shop Manual Clymer Publications,1978 *Screen Design Manual* Frank

Thissen,2003-09-11 The Screen Design Manual provides designers of interactive media with a practical working guide for preparing and presenting information that is suitable for both their target groups and the media they are using It highlights background information and relationships clarifying them with examples and encourages the further development of the language of digital media In addition to the basics of perception and learning psychology ergonomics communication theory imagery research and aesthetics the book also considers design navigation and orientation elements Guidelines and checklists along with the comprehensive design of the book support the transfer of information into practice Frank Thissen teaches multimedia didactics and information design at the University of Applied Sciences in Stuttgart For over 10 years he has been developing computer based training He has worked for international companies such as Siemens AG and SAP AG His research project explores the role of emotion in e learning www.frank-thissen.de Key Topics Interactive media Text for the screen Effective use of pictures Video animation and sound Screen layout Orientation and navigation Interaction Emotions and metamessages Intercultural communication **Motor Imported Car Repair Manual** ,1983 **Hiram B.**
