Revealing Tacit Knowledge Embodiment And Explication Presence And Tacit Knowledge:

Revealing Tacit Knowledge Frank Adloff, Katharina Gerund, David Kaldewey, 2015-03-15 How does tacit knowledge inscribe itself into cultural and social practices As the established distinction between tacit and explicit or discursive forms of knowledge does not explain this question the contributions in this volume reconstruct describe and analyze the manifold processes by which the tacit reveals itself They focus for example on metaphors feelings and visualizations as explications of the tacit as well as on processes of embodiment Taken together they demonstrate that the tacit does not constitute a single or unified knowledge complex but has to be understood in its differentiated and fragmented forms In addition to scholarly essays the volume features interviews with Mark Johnson Theodore Schatzki and Lo c Wacquant *With a Little Help from My Friends* Paula J. Mellom, Rebecca K. Hixon, Jodi P. Weber, 2019-06-14 This conversation based approach accelerates language acquisition for EL students and advances academics and social emotional learning for all The authors present a research based pedagogical model to help K 12 teachers modify the way they plan and implement their lessons to better support the linguistic cognitive and social emotional development of culturally and linguistically diverse students The authors remind us that we are working too hard in our roles as providers of knowledge and literacy Rather a focus on collaborative interactions among students better enables their autonomy mutual learning and self directed paths to meaning and knowledge The teacher onus is reduced yet students ownership and confidence are bolstered in more socioconstructive and effectual ways This work is a must read for all educators Socorro G Herrera Kansas State University and author of *Accelerating Literacy for Diverse Learners* Describes a system of classroom practice that centers on discourse rich pedagogies This book makes an important contribution to the growing field of culturally and linguistically sustaining instructional strategies Cory Buxton College of Education Oregon State University The authors detailed model for achieving joint productive activity transforms the mysterious alchemy of great teaching into a thoughtful collaborative and mindful process all teachers can use to engage students in learning Betsy R Rymes Penn Graduate School of Education

Towards an Aesthetics of the Victorian Novel Nadine Böhm-Schnitker, 2023-11-16 Towards an Aesthetics of the Victorian Novel Senses and Sensations establishes a new analytical method in the broader context of sensory studies in order to explain how the genre of the novel can impact on our perception of ourselves and our social contexts Taking cultural literary studies ahead the book re integrates aesthetics a much fraught concept in cultural studies that long favoured popular over high culture into cultural studies as aesthetics in the word's root sense of perception Zooming in on period shifts and changes in taste spanning realism sensation fiction and aestheticism aesthetics reveals how these shifts also pertain to new ways of perceiving in selected novels by George Eliot Wilkie Collins and Vernon Lee Connecting Victorian and current literary theories aesthetics helps explore the way in which the novel can shape the way we perceive the world what remains excluded from the realm of the perceivable and how our conduct is consequently always also influenced by the dominant genres of our time

Practice, Learning and Change Paul Hager, Alison Lee, Ann Reich, 2012-06-25 The three concepts central to this volume practice learning and change have received very different treatments in the educational literature an oversight directly confronted here While learning and change have been extensively theorised their various contexts articulated and analysed practice is notably underrepresented Where much of the literature on learning and change takes the notion of practice as an unexamined given its co location as a term with various classifiers as in legal practice and teaching practice render it curiously devoid of semantic force In this book practice is the super ordinate organising idea Drawing on what has been termed the practice turn in contemporary theory the work develops a conceptual framework for researching learning in and on practice It challenges received notions of practice questioning the assumptions elisions connotations and silences on the subject In so doing it offers fresh insights into learning and change and how they relate to practice In tandem with this conceptual work the book details site ontological studies of practice and learning in diverse professional and workplace contexts examining the work of occupations as various as doctors chefs and orchestral musicians It demonstrates the value of theorising practice learning and change as well as exploring the connections between them amid our evolving social and institutional structures

Making Sense of Mind-Game Films Simin Nina Littschwager, 2019-06-27 Mind game films and other complex narratives have been a prominent phenomenon of the cinematic landscape during the period 1990 2010 when films like The Sixth Sense Memento Fight Club and Source Code became critical and commercial successes often acquiring a cult status with audiences With their multiple story lines unreliable narrators ambiguous twist endings and paradoxical worlds these films challenge traditional ways of narrative comprehension and in many cases require and reward multiple viewings But how can we make sense of films that don't always make sense the way we are used to While most scholarship has treated these complex films as narrative puzzles that audiences solve with their cognitive skills Making Sense of Mind Game Films offers a fresh perspective by suggesting that they appeal to the body and the senses in equal measures Mind game films tell stories about crises between body mind and world and about embodied forms of knowing and subjective ways of being in the world

Through compelling in depth case studies of popular mind game films the book explores how these complex narratives take their embodied spectators with them into such crises The puzzling effect generated by these films stems from a conflict between what we think and what we experience between what we know and what we feel to be true and between what we see and what we sense

Visible Identities Linda Martín Alcoff, 2005-12-22 Visible Identities offers a careful analysis of the political and philosophical worries about identity and argues that these worries are neither supported by the empirical data nor grounded in realistic understandings of what identities are Mart n Alcoff develops a more realistic characterization of identity in general through combining phenomenological approaches to embodiment with hermeneutic concepts of the interpretive horizon Besides addressing the general contours of social identity Mart n Alcoff develops an account of the material infrastructure of gendered identity compares and contrasts gender identities with racialized ones and explores the experiential aspects of racial subjectivity for both whites and non whites In several chapters she looks specifically at Latino identity as well including its relationship to concepts of race the specific forms of anti Latino racism and the politics of mestizo or hybrid identity

Questioning Leadership Gabriele Lakowski, Scott Eacott, Colin W. Evers, 2016-11-10 Questioning Leadership offers a diverse mix of cutting edge research in the field of educational leadership with contributions from expert and emerging leadership scholars It

contextualises school leadership within broader social and historical contexts and traces its influence on school performance through time from its relatively modest role within a systems theory paradigm to its growing influence from the 1980s onwards as exercising leadership came to be perceived as being largely responsible for improving educational outcomes This book invites the reader to challenge the current orthodoxy of leader centrism and instead reflect more broadly on the various structural and institutional interrelationships that determine how a school functions successfully It poses challenging questions such as Is leadership really necessary for high quality school performance Can schools function effectively without leadership Is it possible to describe the work that principals do without using the word leadership How do we challenge the assumption that leadership simply exists and that it is seen as the appropriate default explanation for school performance This book does not assume that leadership is the key to organisational performance although it acknowledges the work that principals do It goes against current orthodoxy and offers varied perspectives on how leadership might be repositioned vis vis organisational and institutional structures It also suggests some new directions for leading and learning and throws open a discussion on leadership that for too long has been captured by the assumption that the leader is the cause of organisational performance and learning outcomes in schools At a time when leadership's dominance seems unshakeable this is a bold book that should appeal to postgraduate students of educational leadership and management those undertaking training in educational administration and current school leaders interested in exploring the value of leadership for educational organisations

Merleau-Ponty and Utpaladeva Eleni Lorandou, 2025-07-24 Bridging the gap between two distinct philosophical traditions Eleni Lorandou finds consonance in the philosophies of Merleau Ponty and Utpaladeva to articulate a radically phenomenal view of embodiment In an argument for the transcendence of limiting dualisms in thinking she explores how western postmodernism and Indian classical thought can speak to one another across centuries complementing each other in a new and constructive philosophy By bringing the phenomenology of Merleau Ponty and the Recognition School of Utpaladeva into dialogue Lorandou uncovers intriguing insights into the constitution and possibilities of human experience She delves into the intricacies of how we perceive the world around us and considers how our embodied existence shapes our understanding and experience Questioning the notion that our perception directly corresponds to an objective reality and focusing on the topics of other minds Lorandou draws soteriological conclusions Examining the relevance of Merleau Ponty's phenomenological reduction and Utpaladeva's self recognition this illuminating study turns our attention to the topics of perception embodiment realism intersubjectivity and ultimately the transformative implications of philosophical inquiry

Rereading the Stone Anthony C. Yu, 2018-06-05 The eighteenth century Honglouloumeng known in English as Dream of the Red Chamber or The Story of the Stone is generally considered to be the greatest of Chinese novels one that masterfully blends realism and romance psychological motivation and fate daily life and mythical occurrences as it narrates the decline of a powerful Chinese family In this path breaking study Anthony Yu goes beyond the customary view of Honglouloumeng as a vivid reflection of late imperial Chinese culture by examining the novel as a story about fictive representation Through a maze of literary devices the novel challenges the authority of history as well as referential biases in reading At the heart of Honglouloumeng Yu argues is the narration of desire Desire appears in this tale as the defining trait and problem of human beings and at the same time shapes the novel's literary invention and effect According to Yu this focalizing treatment of desire may well be Honglouloumeng's most distinctive accomplishment Through close readings of selected episodes Yu analyzes principal motifs of the narrative such as dream mirror literature religious enlightenment and rhetorical reflexivity in relation to fictive representation He contextualizes his discussions with a comprehensive genealogy of qing desire disposition sentiment feeling a concept of fundamental importance in historical Chinese culture and shows how the text ingeniously exploits its multiple meanings Spanning a wide range of comparative literary sources Yu creates a new conceptual framework in which to reevaluate this masterpiece
