

WHAT IS ADDICTION?

People use alcohol and other drugs for many reasons. Some use these substances to help them to relax or feel more lively. They have enjoyed or feel that alcohol makes them feel the effects of substances make it hard to cope with problems. Some use substances to get away from their problems.

ADDICTION RECOVERY WORKSHEET

WHAT IS ADDICTION?

Consider a person who feels alcohol or cigarettes that they regularly gain in the end and want (strong) the feeling. Addiction is a condition where the person has a strong desire to use the substance and will do anything to get it.

WHAT IS ADDICTION?

THE STIGMA OF ADDICTION

Stigma is another reason why the use of substances and problems may be higher than others suggest. Stigma means substance use problems are shameful and makes people want to hide their addiction.

Stigma also affects the families of people with addiction. It makes them feel the problem is personal and not theirs or a time when families need support.

What can we do about stigma? One single way we can help is to change the talk about 'people with substance use problems' rather than about 'alcoholics', 'drunkards', 'junkies' or 'addicts'. Try this approach: whether you are talking about another person or about yourself, allow you to say you got the person ahead of the problem. This helps to show that you know there is more to a person than a problem, you are also giving the person with an addiction the respect and understanding it takes to recover.
