Contributors discuss cultural issues regarding assessment and treatment of female sex abusers as an unrecognized culture. Publisher's description **Small Press ,1986 Healthy Thinking/feeling/doing from the Inside Out** Jack Pransky,2000 Assessing Sexual Abuse R. A. Glickman,2016-07-15 Preparing Deaf and Hearing Persons with Language and Learning Challenges for CBT A Pre Therapy Workbook presents 12 lessons to guide staff in hospital and community mental health and rehabilitation programs on creating skill oriented therapy settings when working with people who don't read well or have trouble with abstract ideas, problem solving, reasoning, attention, and learning. Drawing from the worlds of CBT, current understandings of best practices in psychotherapy, and the emerging clinical specialty of Deaf mental health care, the workbook describes methods for engaging people who are often considered poor candidates for psychotherapy **Medical and Health Care Books and Serials in Print ,1997 Comparative Treatments of Substance Abuse** E. Thomas Dowd, Loreen Rugle, PhD,1999 This volume in Springer's well conceived Comparative Treatments for Psychological Disorders Series was designed to examine psychotherapy approaches to chemical dependence treatment; it provides important theoretical and clinical information that will be of great use to psychotherapy students, particularly those at the graduate level. It will make an excellent companion resource to many specific chemical dependence treatment texts because it provides a variety of theories that are clearly linked to practical intervention strategies. International Association for Cognitive Psychotherapy, August 2000 This volume addresses a clinical problem seen by most mental health professionals: the abuse of drugs and alcohol. Drs. Dowd and Rugle have assembled top professionals in the field to address the same case to illuminate the strengths and weaknesses of different therapeutic approaches to substance abuse. Treatment modalities include psychodynamic, behavioral, cognitive, REBT, family therapy, and more. The volume also presents current outcome research for evidence based interventions Ending Spouse/Partner Abuse Robert Geffner, Carol Mantooth, MS,2000 This clinician's manual and workbook were developed to provide alternatives in the efforts to reduce the national epidemic of spouse/partner maltreatment. Geffner and Mantooth describe a model incorporating several theories and approaches of psychotherapy while focusing on abuse as a primary issue. The program and techniques have been used and improved for more than 15 years in programs across the country. The clinician will receive a comprehensive intervention program that includes 26 weekly sessions that address how to initiate the foundations for a therapeutic relationship, communicate and express feelings, teach

self management and assertiveness techniques discuss intimacy issues and implement a relapse prevention program Each session contains brief intervention techniques handouts and homework assignments The advantage of this approach is its flexibility Modifications to the order in which the sessions are conducted can be made by trained clinicians to fit the needs of their clients
