Sociology of Examinations Fumiya Onaka, 2019-03-28 Contemporary societies are constructed constricted and constrained
 by various series of examinations Governments of both Western and non Western countries tend to conduct detailed multi
 layered and continuous systems of tests or examinations International tests such as PISA and TIMSS have also been
 introduced to compare the relative performances of learners within diverse educational institutions across different countries
 Examinations therefore provide a methodological pivot for comparing a range of societies They enable us to contrast the
 West and the East the North and the South tribal and mass society ancient and postmodern civilization and so on Comparing
 parallel societies from across Asia the Middle East Europe and North America this book proposes fundamental transitions in
 sociological research from system to process and from communication to composition through intensive studies on
 examinations It uses ethnographies interviews questionnaires documents statistics and big data analyses to make
 comparisons on broad scales of time and space In so doing it suggests hypotheses encompassing different kinds of societies
 in human history including those in the Axial Age and the Modern Ages *Princeton Review AP World History: Modern Prep*
