

RESUME SKILLS

Resume skills are a concise representation of an individual's abilities and expertise relevant to a specific job or industry.

TYPES

- **Hard Skills:** Measurable and teachable
- **Soft Skills:** Personal and learned by experience
- **Transferable Skills:** Comes with you from job to job
- **Job-Related Skills:** Specific skills needed to complete your tasks
- **Adaptive Skills:** Abilities to adapt to change

EXAMPLES

Problem Solving: This requires the capacity to identify problems and develop and implement solutions to bottlenecks.

Research and Analysis: You'll need to do research and analysis in most jobs where you've got to make complex decisions. We need to make decisions based on empirical data and research, rather than on a whim.

Continuing Education of Reference Librarians William A. Katz, 1990 Here is a crucial book on the neglected issue of continuing education of reference librarians For librarians seeking to enhance and maintain a high level of quality reference work and for managers who must assure that their staffs receive the basics in continuing education this is essential reading Continuing Education of Reference Librarians addresses the concerns of all librarians that they must be informed and educated in order to excel in their work In the first several chapters of this comprehensive volume on the job librarians focus on the increased need for nontraditional approaches to continuing education and training of reference staff They offer practical ways of making additional training both useful and relatively easy to carry out within the library setting Teachers of reference offer suggestions for contending with current formal courses and they also examine the responsibilities of not only the reference librarian but also the bibliographer and faculty member in staying abreast of current trends Also in this broad based look at continuing education is a list of critical skills most librarians expect of their reference people including reference interview techniques mastery of basic reference sources and an understanding of new technologies a review of the most revolutionary change in teaching reference librarianship in the last 100 years the online search and a discussion on ethics including the need for librarians to be aware of the basic documents of the American Library Association and more importantly the need to treat all library users equally in terms of access and service regardless of status and personal prejudice Continuing Education of Reference Librarians focuses on specific types of training for librarians Authorities explain pioneering programs in California and Maryland which deal with teaching basic reference tools to beginning librarians and paraprofessionals They also discuss the role of multitype networks in continuing education as the most cost and time efficient means available today and the use of self directed contract learning as a method that requires long term planning and rewards in contrast to the immediate results of a short term plan of education The management perspective of continuing education is also included Working library directors offer their observations on sound inspirational approaches to continuing education They also examine the critical role department heads play as mentor to beginning reference librarians
