Philosopher Thomas Kuhn works under a research consensus among a scientific community A shared paradigm consolidated methods widespread convictions Pragmatically winning formulas must be kept although not at any cost What differentiates a gifted and revolutionary scientist from a more bureaucratic colleague is the capacity and willingness of constantly reevaluating depurating and refining his her own paradigm That is best strategy to avoid that a paradigm itself would gradually come under challenge In my view some achievements in this sense were brought about in our project The e book will be inspiring and informative for both neuroscientists that are concerned with the very foundations of their works and for philosophers that are not blind to empirical evidence Kant once said Thoughts without content are empty intuitions without concepts are blind Paraphrasing Kant we could say Philosophy without science is empty science without philosophy is blind
