

# NMMU B ED FOUNDATION PHASE BUILDING

## Site Plan

Architects: [The Matrix LLC Urban Designers & Architects](#)

Area : [2147 m²](#)

Year : [2018](#)

Location : [Missionville Campus](#)  
[PORT ELIZABETH, SOUTH AFRICA](#)

The competition was won by the Matrix LLC Architects & Urban Designers, whose scheme proposed a structurally playful building that reformed the previously fenced-off connection with the local community through the creation of a public square. The inclusion of the building and greater campus into the surrounding context was one of the primary conceptual drivers.

## **Nmmu Study Guideline 2016:**

**Teaching, Learning, and Enacting of Self-Study Methodology** Jason K. Ritter, Mieke Lunenberg, Kathleen Pithouse-Morgan, Anastasia P. Samaras, Eline Vanassche, 2018-03-15 This book offers a collection of original peer reviewed studies by scholars working to develop a knowledge base of teaching and facilitating self study research methodology Further it details and interconnects perspectives and experiences of new self study researchers and their facilitators in self study communities in different countries and across different continents Offering a broad range of perspectives and contexts it opens up possibilities for encouraging the collaborative and continuous growth of teaching and facilitating self study research within and beyond the field of teacher education The breadth of the scholarship presented expands scholarly discussions concerning designing representing and theorising self study research in response to pressing educational and social questions By documenting and understanding what teaching and learning self study looks like in different contexts and what factors might influence its enactment the book contributes to building a kaleidoscopic knowledge base of self study research Overall this book demonstrates the impact on participants professional learning and validates the authenticity and generative professional applications of self study methodology for and beyond teacher education providing implications and recommendations for practitioners on a global level

Achieving Nelson Mandela University? Sibongile Muthwa, Denver A. Webb, 2024-08-20 South Africa s higher education sector is rooted in the country s divided past A significant State driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities But just over two decades later for a variety of reasons the higher education sector in South Africa appears beset with numerous challenges Nelson Mandela University is one of the public universities that emerged from the restructuring process The university is in an ongoing state of evolution of becoming It developed out of the amalgamation of the University of Port Elizabeth Port Elizabeth Technikon and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005 In 2017 it was renamed Nelson Mandela University after the world renowned statesman rather than the metropolitan area in which the university is primarily located The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society striving to be the academic expression of the values and ethos of its iconic namesake Endeavouring to be something greater and different from the norm imbues its strategy public statements and practices The determination to achieve Mandela University serves or is intended to serve as both an organising principle and a lodestar A cross section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent evolution While Nelson Mandela University has performed the usual work expected of any university it has also sought to turn the university outwards to achieve a higher purpose framing itself as a values based university on a journey to become

something else In Achieving Nelson Mandela University the university attempts to give an account of itself The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go ECCWS 2019 18th European Conference on Cyber Warfare and Security Tiago Cruz ,Paulo Simoes,2019-07-04 *Arts-Based Educational Research Narratives of Academic Identities* Inbanathan Naicker,Daisy Pillay,Kathleen Pithouse-Morgan,Lungile Masinga,Theresa Chisanga,Anita Hiralaal,2024-09-12 This book delves into the complexities of being and becoming an academic in higher education Inspired by the arts the book introduces new voices and insights to scholarly discussions about what constitutes data and analysis in higher education research It demonstrates ABER s ability to shape and critique academic identity narratives in response to pressing problems and dilemmas in higher education The book includes exemplars from studies conducted primarily in South African contexts and led by South African researchers It explores diverse modes including collage digital artwork letter writing metaphor creative nonfiction and theatre making Contributions from expert scholars in Canada and the USA supplement this research and show how it has been enriched by critical transcontinental conversations The authors offer new perspectives on the entwined and complex relationship between the ABER narratives and identities **Worldviews and Values in Higher Education** Madasu Bhaskara Rao,Abhilasha Singh,Pulaparthi Mallika Rao,2025-02-12 Worldviews and Values in Higher Education examines the profound influence these have in shaping institutional governance leadership and capacity building Integrating worldviews and values into institutional policies ensures that governance leadership and capacity building initiatives are coordinated and mutually supportive *Expanding Perspectives on Open Science: Communities, Cultures and Diversity in Concepts and Practices* L. Chan,F. Loizides,2017-06-20 Twenty one years ago the term electronic publishing promised all manner of potential that the Web and network technologies could bring to scholarly communication scientific research and technical innovation Over the last two decades tremendous developments have indeed taken place across all of these domains One of the most important of these has been Open Science perhaps the most widely discussed topic in research communications today This book presents the proceedings of Elpub 2017 the 21st edition of the International Conference on Electronic Publishing held in Limassol Cyprus in June 2017 Continuing the tradition of bringing together academics publishers lecturers librarians developers entrepreneurs users and all other stakeholders interested in the issues surrounding electronic publishing this edition of the conference focuses on Open Science and the 27 research and practitioner papers and 1 poster included here reflect the results and ideas of researchers and practitioners with diverse backgrounds from all around the world with regard to this important subject Intended to generate discussion and debate on the potential and limitations of openness the book addresses the current challenges and opportunities in the ecosystem of Open Science and explores how to move forward in developing an inclusive system that will work for a much broader range of participants It will be of interest to all those concerned with electronic publishing and Open Science in particular **Political Science in South Africa** Peter

Vale, Pieter Fourie, 2016-01-13 In 2013 and in 2014 respectively the South African Association of Political Studies SAAPS and Politikon the South African Journal of Political Studies celebrate their 40th anniversary Also in April 2014 South Africa celebrates twenty years since the advent of the post Apartheid democracy and the birth of the rainbow nation This book provides a timely account of the birth and evolution of South African politics over the past four decades but also of the study of Political Science and International Relations in this country Fourteen political scientists contribute chapters to this volume situating the study of politics within its global context and recounting the development of politics as a field of study at South African universities The fourteen contributions evaluate the state of the discipline s and suggest conclusions that are surprising and in many instances unsettling not only with regards to what and how politics is taught but also how its study has variously gained and lost pertinence for South Africans understanding of their own polity as well as its place in the world The implications are uncomfortable and pose interesting challenges for South African scholarship pedagogy and national self reflection This book was published as a special issue of Politikon

**Global Child** Myriam Denov, Claudia Mitchell, Marjorie Rabiau, 2023-01-13 Armed conflicts continue to wreak havoc on children and families around the world with profound effects In 2017 420 million children nearly one in five were living in conflict affected areas an increase in 30 million from the previous year The recent surge in war induced migration referred to as a global refugee crisis has made migration a highly politicized issue with refugee populations and host countries facing unique challenges We know from research related to asylum seeking families that it is vital to think about children and families in relation to what it means to stay together what it means for parents to be separated from their children and the kinds of everyday tensions that emerge in living in dangerous insecure and precarious circumstances In *Global Child* the authors draw on what they have learned through their collaborative undertakings and highlight the unique features of participatory arts based and socio ecological approaches to studying war affected children and families demonstrating the collective strength as well as the limitations and ethical implications of such research Building on work across the Global South and the Global North this book aims to deepen an understanding of their tri pillared approach and the potential of this methodology for contributing to improved practices in working with war affected children and their families

*Women's Economic Empowerment* Kate Grantham, Gillian Dowie, Arjan de Haan, 2021-03-04 This book investigates the barriers to women s economic empowerment in the Global South Drawing on evidence from a wide range of countries the book outlines important lessons and practical solutions for promoting gender equality Despite global progress in closing gender gaps in education and health women s economic empowerment has lagged behind with little evidence that economic growth promotes gender equality International Development Research Centre s IDRC Growth and Economic Opportunities for Women GrOW programme was set up to provide policy lessons insights and concrete solutions that could lead to advances in gender equality particularly on the role of institutions and macroeconomic growth barriers to labour market access for women and the impact of women s care

responsibilities This book showcases rigorous and multi disciplinary research emerging from this ground breaking programme covering topics such as the school to work transition child marriage unpaid domestic work and childcare labour market segregation and the power of social and cultural norms that prevent women from fully participating in better paid sectors of the economy With a range of rich case studies from Burkina Faso Democratic Republic of the Congo Ethiopia Ghana India Kenya Nepal Rwanda Sri Lanka Tanzania and Uganda this book is perfect for students researchers practitioners and policymakers working on women s economic empowerment and gender equality in the Global South

*Postgraduate Supervision* Magda Fourie-Malherbe,Ruth Albertyn,Eli Bitzer,2016-11-21 The 24 chapters contained in this volume provide diverse but also congruent perspectives on future foci for research into postgraduate education and supervision in the knowledge society The chapters move from deliberations on challenges for postgraduate supervision at macro level such as the pressure to increase postgraduate output and the implications of increasingly managerialist institutions to meso level matters the form and function of postgraduate education in specific countries to the micro rich case studies of individual institutions programmes and supervisors

Online Intercultural Exchange Robert O'Dowd,Tim Lewis,2016-03-31 This volume provides a state of the art overview of Online Intercultural Exchange OIE in university education and demonstrates how educators can use OIE to address current challenges in university contexts such as internationalisation virtual mobility and intercultural foreign language education Since the 1990s educators have been using virtual interaction to bring their classes into contact with geographically distant partner classes to create opportunities for authentic communication meaningful collaboration and first hand experience of working and learning with partners from other cultural backgrounds Online exchange projects of this nature can contribute to the development of learner autonomy linguistic accuracy intercultural awareness intercultural skills and electronic literacies Online Intercultural Exchange has now reached a stage where it is moving beyond individual classroom initiatives and is assuming a role as a major tool for internationalization intercultural development and virtual mobility in universities around the globe This volume reports qualitative and quantitative findings on the impact of OIE on universities in Europe and elsewhere and offers comprehensive guidance on using OIE at both pedagogical and technological levels It provides theoretically informed accounts of Online Intercultural Exchanges which will be relevant to researchers in Computer Assisted Language Learning Computer Mediated Communication or Virtual Education Finally contributors offer a collection of practitioner authored and practically oriented case studies for the benefit of teachers of foreign languages or in other subject areas who wish to engage in developing the digital literacy and intercultural competences of their learners
