Officer and Staff Remuneration and Conditions,2012-03-15 This Review has established that the police service is currently ill  
equipped to respond to possible and probable changes in increasingly specialised crime trends political accountability  
financial resources and the demographics of its workforce This report covers reforms that may be introduced in the longer  
term An earlier report on reforms that could be introduced in the short term published in March 2011 Cm 8024 ISBN  
9780101802420 and made recommendations for savings of 1 1 billion over 3 years most of which are being implemented  
following a determination of the Police Arbitration Panel This report makes recommendations which could realise gross  
savings of 1 9 billion with 1 2 billion reinvested in policing The 121 recommendations cover employment framework entry  
route and promotion health fitness and managing the workforce basic pay contribution related pay and role based pay  
negotiating machinery Each chapter contains a recommended phased process for introduction The recommendations will  
provide the police service with the ability to attract and retain high calibre candidates with different skills and experiences to  
maintain operational resilience by maximising the deployment of fit and healthy officers and to manage office numbers  
according to need and in the public interest Entry into the police service and advancement within would be according to the  
sole criterion of merit The recommendations for reform of the pay review apparatus will have a profound effect establishing a  
well resourced professional pay review body ensuring that officers pay is determined on sound evidence      **Dictionary of**
