Laurence Miller,2006      **Policing America's Empire** Alfred W. McCoy,2009-10-15 At the dawn of the twentieth century the U S Army swiftly occupied Manila and then plunged into a decade long pacification campaign with striking parallels to today s war in Iraq Armed with cutting edge technology from America s first information revolution the U S colonial regime created the most modern police and intelligence units anywhere under the American flag In Policing America s Empire Alfred W McCoy shows how this imperial panopticon slowly crushed the Filipino revolutionary movement with a lethal mix of firepower surveillance and incriminating information Even after Washington freed its colony and won global power in 1945 it

would intervene in the Philippines periodically for the next half century using the country as a laboratory for counterinsurgency and rearming local security forces for repression In trying to create a democracy in the Philippines the United States unleashed profoundly undemocratic forces that persist to the present day But security techniques bred in the tropical hothouse of colonial rule were not contained McCoy shows at this remote periphery of American power Migrating homeward through both personnel and policies these innovations helped shape a new federal security apparatus during World War I Once established under the pressures of wartime mobilization this distinctively American system of public private surveillance persisted in various forms for the next fifty years as an omnipresent sub rosa matrix that honeycombed U S society with active informers secretive civilian organizations and government counterintelligence agencies In each succeeding global crisis this covert nexus expanded its domestic operations producing new contraventions of civil liberties from the harassment of labor activists and ethnic communities during World War I to the mass incarceration of Japanese Americans during World War II all the way to the secret blacklisting of suspected communists during the Cold War

Civilian Oversight of Policing Andrew Goldsmith, Colleen Lewis, 2000-10-22 As the issue of police conduct in both industrialized and non industrialized countries has reached several international agendas contributors from the social sciences justice and human rights examine recent experiences with and prospects for civilian oversight and how the relatively new method of accountability has been interpreted and implemented in a wide range of jurisdictions around the world Distributed in the US by ISBS c Book News Inc
