

## Anti-Harassment Policy and Implementation Procedure

GBTI has successfully demonstrated its ability to grow and maintain high standards of performance. This has been possible due to sound HR practices and some key written policies and procedures such as the GBTI Employees Service Rules, Personnel and Administration Manual, Gender Mainstreaming Policy, etc. GBTI's HR policy is a gender sensitive policy based on the following principles:

**Equal opportunity:** GBTI provides equal opportunities to men and women and for this purpose such rules and procedures have been proposed that enable both men and women to show their potential. In some areas where women mobility is restricted or literacy levels are low or they face any constraints that hinder their performance, the GBTI management is allowed to relax rules as compared to those applicable to men to bring women at par with men.

**Transparency:** Though certain levels of supervisory staff enjoy authority over the others, all decisions are documented and the basis of decisions is generally known to all GBTI employees.

**Flexibility to meet diverse requirements of the program:** GBTI's operations cover diverse areas, population, casts and languages; hence the procedures may not be the same across all regions.

**Continuous capacity building:** The driving force of any organization is its people. Therefore, GBTI is committed to build opportunities and pursuit life-long learning for its all employees without any discrimination that gives the capacity to move forward to achieve its mission and sustain its existence.

**Rewarding exceptional performers, innovators and role models** for inspiring other staff to increase programme effectiveness, improve efficiency or mobilize financial resources.

**Zero tolerance for corruption and sexual harassment:** GBTI requires all of its employees to abstain/refrain from corruption and any sort of harassment of employees in the workplace based on a characteristic protected by law, such as sex, race, color, ethnicity, caste, ancestry, religion, age, disability or marital status and a violation of Pakistan laws. Such allegations will not be tolerated. Where it is determined that inappropriate conduct has occurred, GBTI acts promptly to eliminate the conduct and impose corrective action as necessary up to and including termination of employees responsible for such acts.

**Equal opportunity, special consideration for women and people with Disability:** GBTI is an equal opportunity employer. GBTI is committed to recruit and select most competent and qualified persons. Recruitment and selection shall be made executed in a manner that ensures, open competition, and strictly discourage all sorts of discriminations on the basis of sex, creed, religion, and disability. The CEO is authorized to relax rules for the selection for a disadvantaged group for a specific category of employees. For example, in a remote

**Development Goals** Magdalena Bexell, Kristina Jönsson, 2021-06-09 This book draws attention to political aspects of sustainable development goal setting exploring the Sustainable Development Goals SDGs at the global national nexus during their first five years After broad global deliberation and political negotiations the 2030 Agenda and its SDGs were adopted in the United Nations UN General Assembly in 2015 and by now many countries have political structures in place for working towards their realisation This book explores three concepts to call attention to the political qualities of processes related to the SDGs legitimacy responsibility and accountability Legitimacy is required to obtain broad political ownership for policy goals in order for them to become effective in addressing cross border sustainability challenges Responsibility needs to be

clearly distributed among political institutions if a long term set of broad goals such as the SDGs are to be realised Accountability to the public is the retrospective mirror of political responsibility The Politics of the Sustainable Development Goals contributes new knowledge on political processes at the nexus of global and national levels focussing on three countries at different levels of socio economic development and democratisation namely Ghana Tanzania and Sweden These countries illustrate a variety of challenges related to the realisation of the SDGs This book will be of great interest to students and scholars of sustainable development international organisations and global politics **Regional**

**Environmental Governance and Avenues for the Ecosystem Approach to management in the Baltic Sea Area** Sara Söderström, 2017-01-17 This thesis explores the avenues for the ecosystem approach to management in the Baltic Sea Region This region is one of the most contaminated water bodies in the world although the first Regional Seas Convention was created here and theregion has a long history of cooperation and environmental protection The current environmental governance arrangements are examined with specific focus on governance structures cross sectoral integration and ecological boundaries The ecosystem approach to management as both a tool and vision of holistic management of natural resources is traced through the evolution of environmental governance as well as its manifestation in contemporary environmental policies in the region It is found that the major EU directives as well as HELCOM polices promote the ecosystem approach and that its presence has increased in recent years it is now the major guiding principle in European marine governance However the governance structures impede implementation in different ways The environmental problem areas in the region all require different governance arrangements thus obstructing a holistic approach The environmental problems per se also affect each other necessitating far reaching sectoral integration and cross border cooperation which at present is the major obstacle regarding implementation The contemporary trends combining solid regionalisation through HELCOM with increased Europeanisation and macro regionalisation by different EU initiatives offer some promise but the cross sectoral impediments must be resolved if the ecosystem approach is to become a practical approach and not just a policy principle [The Law of Higher Education, 2 Volume Set](#) William A.
