Callahan, II, 2024-09-24 Fire in the Whole explores the anger of Black Christians who feel betrayed by white Christianity's complicity of perpetuating racism In this transformative work author Robert Callahan not only empathizes with this pain giving words to strong and powerful emotions but also provides guidance for healing church related wounds How can all Christians claim to love and serve the same God and yet see and act in the world so differently Texas attorney and writer Robert Callahan makes the case that white American Christians have failed to embody both their civic commitment to liberty and justice for all and their biblical call to love every neighbor as Christ loves us In Fire in the Whole Callahan explores the poignant journey of Christians who grapple with their sense of belonging within a faith tainted by toxic political ideologies seeking healing for their souls Boldly questioning the authenticity of individuals within the white Christian community who adhere to Christian nationalism or claim color blind ignorance of racial injustice through cultural conflicts this book navigates the complex modern Christian landscape illuminating deep rooted racial and religious rifts exacerbated by recent political figures and toxic theology

Through compelling storytelling and analysis Callahan provides meticulous research and heartfelt insights drawing a roadmap for healing Whether you are a Christian minority who is hurt and angry a progressive white ally seeking understanding of what went wrong or a conservative white Christian willing to engage in constructive dialogue to rebuild a fractured community this book is a powerful guide to navigating the flames of righteous anger and emerging whole again

Water Capitalism Walter E. Block, Peter L. Nelson, 2015-10-30 Water covers some 75% of the earth's surface while land covers 25% approximately Yet the former accounts for less than 1% of world GDP the latter 99% plus Part of the reason for this imbalance is that there are more people located on land than water But a more important explanation is that while land is privately owned water is unowned with the exception of a few small lakes and ponds or governmentally owned rivers large lakes This gives rise to the tragedy of the commons when something is unowned people have less of an incentive to care for it preserve it and protect it than when they own it As a result we have oil spills depletion of fish stocks threatened extinction of some species e g whales shark attacks polluted and dried up rivers misallocated water unsafe boating piracy and other indices of economic disarray which if they had occurred on the land would have been more easily identified as the result of the tragedy of the commons and or government ownership and mismanagement The purpose of this book is to make the case for privatization of all bodies of water without exception In the tragic example of the Soviet Union the 97% of the land owned by the state accounted for 75% of the crops On the 3% of the land privately owned 25% of the crops were grown The obvious mandate requires that we privatize the land and prosper The present volume applies this lesson in detail to bodies of water

The False Promise of Green Energy Andrew P. Morriss, 2011 Green energy promises an alluring future more jobs in a cleaner environment We will enjoy a new economy driven by clean electricity less pollution and of course the gratitude of generations to come There's just one problem the lack of credible evidence that any of that can occur The Classical Liberal Case for Israel Walter E. Block, Alan G. Futerman, 2021-11-02 This book offers a unique perspective on the State of Israel based on classical liberalism both on a historical and theoretical level Specifically it makes a classical liberal and libertarian analysis based upon homesteading and private property rights to defend the State of Israel As such this work explores the history of the Jewish State both to provide a positive case for its right to exist and to clarify the myths surrounding its origin and development At the same time it deals with other relevant related subjects such as the complex situation between Israel and the Palestinian Arabs the military campaigns against the Jewish State the connection between anti Zionism and anti Semitism and Israel's economic miracle The thorough analysis presented in this work intends to show not only why the voices and movements against Israel are wrong including the Boycott Divestment and Sanctions movement BDS but more importantly why Israel is an example of human flourishing and freedom that every advocate for liberty should

celebrate The Classical Liberal Case for Israel makes the practical and moral case for Israel It is based on truths and facts that need to be repeated over and over Block Futerman understand that the only way to defeat a big lie is with a big truth Benjamin Netanyahu Prime Minister of the State of Israel Jerusalem Israel Classical Liberalism often associated with the spread West from Northern Europe in creating free nations is argued here as applying to Israel with ancient roots in the principles of human freedom Vernon L Smith Ph D Nobel Prize in Economic Sciences 2002 and Professor George L Argyros Endowed Chair in Finance and Economics Professor of Economics and Law Smith Institute for Political Economy and Philosophy at Chapman University
