, 1980 *A readable English dictionary, etymologically arranged* David Milne (M.A.), 1888 **Poetics of Cognition** Jessica Lewis Luck, 2023-08-14 Poetics of Cognition investigates the material effects of experimental poetics using new evidence emerging from cognitive science It asks How do experimental poems think and how do we think through them Examining experimental modes such as the New Sentence proceduralism projective verse sound poetry and visual poetry Jessica Lewis Luck argues that experimental poems materialize not so much the content as the activity of the embodied mind and they can thus function as a powerful scaffolding for extended cognition both for the writer and the reader While current critical approaches tend to describe the effects of experimentalism solely in terms of emotion and sensation Luck shifts from the feeling to the thinking that these poems can generate expanding the potential blast radius of experimental poetic effects into areas of linguistic sonic and visual processing and revealing a transformational potency that strictly affective approaches miss The cognitive research Luck draws upon suggests that the strangeness of experimental poetry can reshape the activity of the reader s mind creating new forms of attention perception and cognition This book closes by shifting from theory to praxis extracting forms of teaching from the forms of thinking that experimental poems instill in order to better enable their transformative effects in readers and to bring poetry pedagogy into the twenty first century *Encyclopedia of Contemporary British Culture* Peter Childs, Mike Storry, 1999 Culture is defined in its broadest sense and areas covered

Travel in Victorian Periodicals, 1850-1900 Barbara Korte,2024-08-28 This is the first study to explore the connections between the development of travel and the rapid expansion of the periodicals market in the second half of the nineteenth century in Britain By the 1860s travel articles had become a staple of the periodicals market and reached readers who might never have travelled far themselves or bought a travel book This monograph demonstrates that the representation of travel in Victorian periodicals came in forms and with cultural functions that differed from book publication and that this media specific representation helped to inscribe travel into the Victorian lifeworld Based on a corpus of several general interest periodicals targeted at different audiences this book investigates how different readers the family women young
