Homeowners** Scott T. Hanson, 2019-12-10 How to accommodate contemporary life in a historic house This book does not
repeat basic information that is readily available in many standard DIY books about carpentry wiring and plumbing Rather it
shows how to adapt those DIY skills to the specialized needs of a historic house Although there are other books about
renovating old houses this is the first that prioritizes the identification and preservation of the historic character defining
features of a house as a starting point in the process That is the purpose of this book to describe and illustrate a best
practices approach for updating historic homes for modern life in ways that do not attempt to turn an old house into a new
one The book also suggests many ways to save money in the process without settling for cheap or inappropriate solutions
Scott Hanson is a historic building preservation professional and has 40 years experience rehabilitating historic houses He
has illustrated this authoritative book with hundreds of step by step photos illustrations charts and decision making guides
Interspersed throughout are photo essays of 13 restored historic houses representing a range of periods and architectural

Simplified Signs: A Manual Sign-Communication System for Special Populations, Volume 2. John D. Bonvillian, Nicole Kissane Lee, Tracy T. Dooley, Filip T. Loncke, 2020-07-30

Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages It is the culmination of over twenty years of research and development by the authors The Simplified Sign System has been developed and tested for ease of sign comprehension memorization and formation by limiting the complexity of the motor skills required to form each sign and by ensuring that each sign visually resembles the meaning it conveys Volume 1 outlines the research underpinning and informing the project and places the Simplified Sign System in a wider context of sign usage historically and by different populations Volume 2 presents the lexicon of signs totalling approximately 1000 signs each with a clear illustration and a written description of how the sign is formed as well as a memory aid that connects the sign visually to the meaning that it conveys While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities cerebral palsy autism or aphasia it may also assist the communication needs of a wider audience such as healthcare professionals aid workers military personnel travellers or parents and children who have not yet mastered spoken language The system also has been shown to enhance

learning for individuals studying a foreign language Lucid and comprehensive this work constitutes a valuable resource that will enhance the communicative interactions of many different people and will be of great interest to researchers and educators alike
