Political Ethics And Public Office:

Political Ethics and Public Office Dennis Frank Thompson, 1987 Are public officials morally justified in threatening violence engaging in deception or forcing citizens to act for their own good Can individual officials be held morally accountable for the wrongs that governments commit Dennis Thompson addresses these questions by developing a conception of political ethics that respects the demands of both morality and politics He criticizes conventional conceptions for failing to appreciate the difference democracy makes and for ascribing responsibility only to isolated leaders or to impersonal organizations His book seeks to recapture the sense that men and women acting for us and together with us in a democratic process make the moral choices that govern our public life Thompson surveys ethical conflicts of public officials over a range of political issues including nuclear deterrence foreign intervention undercover investigation bureaucratic negligence campaign finance the privacy of officials health care welfare paternalism drug and safety regulation and social experimentation He views these conflicts from the perspectives of many different kinds of public officials elected and appointed executives at several levels of government administrators judges legislators governmental advisers and even doctors lawyers social workers and journalists whose professional roles often thrust them into public life In clarifying the ethical problems faced by officials Thompson combines theoretical analysis with practical prescription and begins to define a field of inquiry for which many have said there is a need but to which few have yet contributed Philosophers political scientists policy analysts sociologists lawyers and other professionals interested in ethics in government will gain insight from this book

Political Ethics Edward Hall, Andrew Sabl, 2022-08-30 A comprehensive introduction to contemporary political ethics What is the relationship between politics and morality May politicians bend moral constraints in the name of political necessity Is it always wrong for leaders to lie How much political compromise is too much or too little In Political Ethics some of the world's leading thinkers in politics philosophy and related fields offer a comprehensive and accessible introduction to key issues in this rapidly growing area of political theory In a series of original essays the contributors examine a range of urgent political problems lies and deception compromise and refusal to compromise the meaning and limits of political integrity representation and failures of representation good and bad democratic leadership the virtues and excesses of partisanship administrative ethics political corruption whistleblowing legitimate and illegitimate claims of political emergency and lobbying What emerges are realistic but demanding ethical standards and a clear-eyed understanding of the ethical challenges of political life in the twenty-first century With contributions by Richard Bellamy Alin Fumurescu Edward Hall Suzanne Dovi and Jesse McCain Eric Beerbohm Russell Muirhead and Nancy Rosenblum Joseph Heath Elizabeth David Barrett and Mark Philp Michele Bocchiola and Emanuela Ceva Nomi Lazar Phil Parvin and Andrew Sabl

Political Ethics and Public Office Dennis Frank Thompson, 1987 Are public officials morally justified in threatening violence engaging in deception or forcing citizens to act for their own good Can individual officials be held

morally accountable for the wrongs that governments commit Dennis Thompson addresses these questions by developing a conception of political ethics that respects the demands of both morality and politics He criticizes conventional conceptions for failing to appreciate the difference democracy makes and for ascribing responsibility only to isolated leaders or to impersonal organizations His book seeks to recapture the sense that men and women acting for us and together with us in a democratic process make the moral choices that govern our public life

The Political Ethics of Public Service Vera Vogelsang-Coombs, 2016-05-05 This book provides a defense of democratic politics in American public service and offers the political ethics of public service as a realistic and optimistic alternative to the cynical American view toward politics and public service The author's alternative helps career public servants regain public trust by exercising constitutionally centered moral and political leadership that balances the regime values of liberty and equality in governing American society while contributing to the ethical progress of the nation She identifies three distinct leadership styles of political ethics enabling career public servants to reconcile their personal loyalties morality and consciences with the public and private morality of American society and their constitutional obligations to secure the democratic freedoms of Americans Recognizing career public servants moral and institutional struggles the book proposes a rigorous leadership development program to acclimate individuals to workplace psychological moral and political challenges The view offered here is that career public servants must be a part of rather than isolated from American politics to be effective on the job

Ethics in Congress Dennis F. Thompson, 1995-07 In this book Dennis Thompson argues that the growing demand for accountability in an increasingly complicated political environment has rendered traditional codes of conduct inadequate Shifting the focus from individual corruption to institutional corruption the author shows how the institution itself is posing new ethical challenges and how the complexity of the environment in which members work creates new occasions for corruption and invites more calls for accountability Thompson moves the discussion beyond bribery extortion and personal gain to the world of implicit understandings ambiguous favors and political advantage He examines several major ethics cases of recent years including the cases of David Durenberger the Keating Five and former House Speaker James Wright

Ethics in Congress Dennis Frank Thompson, 1995 More members of Congress have been investigated and sanctioned for ethical misconduct in the past decade and a half than in the entire previous history of the institution But individual members are probably less corrupt than they once were Stricter ethics codes and closer scrutiny by the press and public have imposed standards no previous representatives have had to face Dennis Thompson shows how the institution itself is posing new ethical challenges how the complexity of the environment in which members work creates new occasions for corruption and invites more calls for accountability Instead of the individual corruption that has long been the center of attention Thompson focuses on institutional corruption which refers to conduct that under certain conditions is an acceptable part of the job of a representative Members are required to solicit campaign contributions and they are expected to help constituents with their

problems with government but some ways of doing these jobs give rise to institutional corruption The author moves the discussion beyond bribery extortion and simple personal gain to delve into implicit understandings ambiguous favors and political advantage Thompson examines many major ethics cases of recent years Among them the case of David Durenberger accused of supplementing his income through book promotions the case of the Keating Five accused of using undue influence with the Federal Home Loan Bank Board on behalf of Lincoln Savings and Loan owner Charles Keating and the case of House Speaker James Wright accused of several offenses Thompson shows why neither the electoral process nor the judicial process is sufficient and argues for stronger ethics committees and the creation of a new quasi independent body to take over some of the enforcement process He offers more than a dozen recommendations for changes in the procedures and practices of ethics in Congress The book features a listing of ethics charges classified by type of corruption considered by Congress from 1789 to 1992 Selected by Choice as an Outstanding Book of 1995 *A Guide to Ethics and Public Policy* D. Don Welch, 2014-04-16 Developed by D Don Welch during his 28 years of teaching ethics and public policy the rationale behind *A Guide to Ethics and Public Policy* is to present a comprehensive guide for making policy judgments Rather than present specific cases that raise moral issues or discuss the role a few concepts play in the moral analysis of policy this book instead provides a broad framework for the moral evaluation of public policies and policy proposals This framework is organized around guiding five principles benefit effectiveness fairness fidelity and legitimacy These principles identify the factors that should be taken into account and the issues that should be addressed as citizens address the question of what the United States government should be able to do Organized by concept with illustrations and examples frequently interspersed the book covers both theory and specific issues *A Guide to Ethics and Public Policy* outlines a comprehensive ethical framework provides content to the meaning of the five principles that comprise that framework through the use of illustrations and examples and offers guidance about how to navigate one's way through the conflicts and dilemmas that inevitably result from a serious effort to analyze policies *Ethics and Public Administration* H George Frederickson, John A. Rohr, 2015-03-04 *Ethics and Public Administration* refutes the arguments that administrative ethics cannot be studied in an empirical manner and that empirical analysis can deal only with the trivial issues in administrative ethics Within a theoretical perspective the authors qualify their findings and take care not to over generalise results The findings are relevant to the practice of public administration Specific areas addressed include understanding public corruption ethics as control and ethics as administration and policy *The Routledge Handbook of Ethics and Public Policy* Annabelle Lever, Andrei Poama, 2018-10-26 What does it mean to do public policy ethics today How should philosophers engage with ethical issues in policy making when policy decisions are circumscribed by political and pragmatic concerns How do ethical issues in public policy differ between areas such as foreign policy criminal justice or environmental policy *The Routledge Handbook of Ethics and Public Policy* addresses all these questions and more and is the first handbook of its kind It is comprised of 41 chapters

written by leading international contributors and is organised into four clear sections covering the following key topics
 Methodology philosophical approaches to public policy ethical expertise knowledge and public policy Democracy and public policy identity integration and inclusion voting linguistic policy discrimination youth policy religious toleration and the family Public goods defence and foreign policy development and climate change surveillance and internal security ethics of welfare healthcare and fair trade sovereignty and territorial boundaries and the ethics of nudging Public policy challenges criminal justice policing taxation poverty disability reparation and ethics of death policies The Routledge Handbook of Ethics and Public Policy is essential reading for students and researchers in philosophy politics and social policy It will be equally useful to those in related disciplines such as economics and law or professional fields such as business administration or policy making in general

From New Public Management to New Political Governance Herman Bakvis, Mark D. Jarvis, 2012 A festschrift in honour of Peter C Aucoin professor emeritus of political science and public administration

Ethics, the Heart of Leadership Joanne B. Ciulla, 2014-09-09 Top academic scholars ponder the question of ethics as it pertains to all aspects of leadership in business government and nonprofit organizations If leaders were defined by their influence on history Hitler would be on par with Gandhi Lincoln and Mother Theresa Yet most of us believe that our superiors have a responsibility to exercise power with a purpose far greater than any political agenda and a motive more noble than personal gain This thought provoking collection of essays explores the ethical challenges that leaders face in their relationships with followers the choices they make and the ways in which they influence others Joanne Ciulla and her contributors examine the traits and characteristics of top tier leaders She questions the assumption that moral fortitude is an inherent part of being in charge analyzes the roles that charisma morality and delegation play in the leadership paradigm and considers whether individuals who want to lead with integrity but are sometimes forced to get their hands dirty for their constituents can be called moral leaders Readers will gain an appreciation for how ethics is not an add on to the practice of leadership but rather an integral part of it an element that informs the very idea of what it means to lead and to lead well

Ethics and Political Practice Noel Preston, Charles Sampford, 2012-10-02 Scrutinizing the practice of legislators and politicians from an ethical perspective this work looks closely at various methods to facilitate ethical conduct

Public Administration Marc Holzer, Richard W Schweser, 2014-12-18 Marc Holzer and Richard Schweser have written a fresh and highly engaging textbook for the introductory course in Public Administration Their coverage is both comprehensive and cutting edge not just including all the basic topics OT budgeting HRM but also reflecting new realities in public administration Innovations in e government The importance of new technology Changes in intergovernmental relations especially the emphasis on inter local and shared regional resources Public performance and accountability initiatives Public Administration has been crafted with student appeal in mind Each of the book s 14 chapters is generously and colorfully illustrated with cartoons quotes and artwork all reinforcing the book s theme that the field of PA is rooted in the cultural and political world Each chapter is also supported

with a listing of key terms exercises and additional resources **The Oxford Handbook of Public Management** Ewan Ferlie, Laurence E. Lynn, Christopher Pollitt, 2007 The public sector continues to play a strategic role across the world and in the last thirty years there have been major shifts in approaches to its management This text identifies the trends in public management and the effects these have had as well as providing a broad overview to each topic **Political Philosophy** Anthony O'Hear, 2006 Collection of essays covering a wide range of topics in political philosophy first published in 2007

Independent Justice Katy Jean Harriger, 1992 Congress created the Office of the Special Prosecutor in 1978 Its mandate was to insure the rule of law to check abuses of power in the executive branch and to restore public confidence in government after the Watergate scandal Harriger politics Wake Forest U focuses on the symbolic constitutional and political dimensions of her subject to provide a comprehensive in depth review of the Office of the Special Prosecutor and how it has operated in practice Annotation copyrighted by Book News Inc Portland OR **Rethinking Democratic Accountability**

Robert D. Behn, 2004-05-26 Traditionally American government has created detailed formal procedures to ensure that its agencies and employees are accountable for finances and fairness Now in the interest of improved performance we are asking our front line workers to be more responsive we are urging our middle managers to be innovative and we are exhorting our public executives to be entrepreneurial Yet what is the theory of democratic accountability that empowers public employees to exercise such discretion while still ensuring that we remain a government of laws How can government be responsive to the needs of individual citizens and still remain accountable to the entire polity In *Rethinking Democratic Accountability* Robert D Behn examines the ambiguities contradictions and inadequacies in our current systems of accountability for finances fairness and performance Weaving wry observations with political theory Behn suggests a new model of accountability with compacts of collective mutual responsibility to address new paradigms for public management

Handbook of Public Administration W. Bartley Hildreth, Gerald Miller, Jack Rabin, Gerald J. Miller, 2018-01-19 Since the publication of the previous edition the best selling Handbook of Public Administration enters its third edition with substantially revised updated and expanded coverage of public administration history theory and practice Edited by preeminent authorities in the field this work is unparalleled in its thorough coverage and comprehensive references This handbook examines the major areas in public administration including public budgeting and financial management human resource management decision making public law and regulation and political economy Providing a strong platform for further research and advancement in the field this book is a necessity for anyone involved in public administration policy and management This edition includes entirely new chapters on information technology and conduct of inquiry In each area of public administration there are two bibliographic treatises written from different perspectives The first examines the developments in the field The second analyzes theories concepts or ideas in the field's literature *A Companion to Political Philosophy. Methods, Tools, Topics* Antonella Besussi, 2016-03-23 This book offers a comprehensive overview of the key

concepts and issues of contemporary political philosophy providing an essential reference work for scholars and advanced students It is structured in three parts covering methodological issues tools and argumentative strategies employed by political philosophy and concepts and topics key to the discipline Expert authors from around the world have written twenty chapters in a consistent and engaging style Each chapter is thoroughly cross referenced allowing students to appreciate how methodological issues relate to each other and how methodology and argumentative tools affect the way substantial issues are addressed The chapters are supplemented by further reading lists and selected bibliographies to aid further research The companion will be required reading for masters and post doctoral students providing them with the appropriate tools for approaching political philosophy in a more thoughtful way and showing how substantive topics are addressed within different perspectives and paradigms The companion also provides upper level undergraduates with a sophisticated introduction to the relevant problems and challenges political philosophy addresses

Ethics in Politics Emily Crookston, David Killoren, Jonathan Trerise, 2016-12-08 Within the field of political philosophy the role of states governments and institutions has dominated research This has led to a dearth of literature that examines what individuals e g voters lobbyists and politicians ought or ought not to do *Ethics in Politics The Rights and Obligations of Individual Political Agents* meets this need providing a timely discussion of normative questions concerning political agents and the systems in which they act The book contains eighteen original chapters by leading scholars which cover a range of topics including irrational voting bribery partisanship and political lying *Ethics in Politics* is a unique and accessible resource for students researchers and all interested readers and sheds light on important but underexplored issues in ethics and political philosophy
