, 1990 **No Time to be Brief** Charles Paul Enz, 2002 This book retraces the life of the physicist Wolfgang Pauli, analyses his scientific work and describes the evolution of his thinking. Pauli spent 30 years as a professor at the Federal Institute of Technology (ETH) in Zurich, which occupies a central place in this biography. It would be incomplete, however, without a rendering of Pauli's sarcastic wit and most importantly of the world of his dreams. It is through the latter that quite a different aspect of Pauli's life comes in, namely his association with the psychology of C. G. Jung and his school. **Research in Education**, 1971
