

The Geography Oasis

Population

Density and Distribution

Activate

Study the two images and describe the differences. (climate, economic activities and services, relief, accessibility)

Climate
Relief
Accessibility
Economic activities and services

Extension: Compare these pictures to your own home area. Is it similar or different?

PRESENTATION

Factors influencing where people live

Activities and the environment influence the location. People live in areas where the factors are most favourable to them.

Factors

Extension: How can we use this information to help us understand the world better?

WORKSHEET

Global Population Distribution

Global population distribution shows global population density and distribution. Density is the number of people living in a given area.

Population Density

- The world's population is unevenly distributed across the globe.
- The majority of the world's population lives in the Northern Hemisphere.
- The majority of the world's population lives in the Eastern Hemisphere.
- The majority of the world's population lives in the Southern Hemisphere.
- The majority of the world's population lives in the Western Hemisphere.

Population Density and Distribution

Some areas of the world are densely populated (crowded), with many people. Some areas are sparsely populated (empty), with few people.

Factors influence where people live.

Physical factors (climate, relief, accessibility) and human factors (economic activities and services, environment) influence where people live.

Population Density

Population Density is the number of people living in a given area.

Population Density is measured in people per square kilometre (ppk).

EDITABLE. ANSWER KEY INCLUDED.
