Navigating a New World Lloyd Axworthy, 2010-07-30 In *Navigating a New World* Lloyd Axworthy charts how we can become active citizens in the demanding world of the twenty first century to make it safer more sustainable and more humane Throughout he emphasizes the human story As we meet refugees from civil war and drought child soldiers and landmine victims the moral imperative is clear this is a deeply compassionate appeal to confront poverty war and environmental disaster Before Lloyd Axworthy entered global politics human security a philosophy calling for global responsibility to the interests of individuals rather than to the interests of the nation state or multi national corporations was a controversial and unfamiliar idea When put into action human security led to an international ban on landmines initiatives to curtail the use of child soldiers and the formation of the International Criminal Court Today with conflict raging across the planet and building the need for a humane secure international governance is more vital than ever So how can Canada reject a world model dominated by U S policy military force and naked self interest How can we rethink a global world from the perspective of people our security our needs our promise our dreams Lloyd Axworthy delivers recommendations that are both practical and radical ranging from staunch Canadian independence from the U S to environmental as well as political security from rules to govern intervention when nations oppress their own citizens to codes of conduct on arms control and war crimes Arresting and provocative *Navigating a New World* lays out just why Canada has the skills to lead the world into a twenty first century less nightmarish than the last and help make the world safer and more just for us all This is a call for action from one of Canada s most eloquent statesmen and thinkers and is essential reading for all Canadians Where is the line we draw in setting out the boundaries for being responsible for others Is it simply family and close friends Do we stop at the frontiers of our own country Does our conscience our sense of right or wrong take us as far as the crowded camps of northern Uganda surrounded by land mines attacked repeatedly by an army made largely of child soldiers I believe we in Canada have a special vocation to help in the building of a more secure order We need not be confined to our self interest from *Navigating a New World*
