STOCK**

A red, distressed-style rectangular stamp with rounded corners and a white border is placed over a blurred background. The background shows a tipped-over amber pill bottle with white capsules spilling out onto a grey surface. The stamp's text, 'OUT OF STOCK', is in a bold, serif font with a white outline and a red drop shadow.

Nigeria Demographic and Health Survey, 1990 *Use of secondary population-based databases to evaluate the safety of medications* Patricia Tennis, Elizabeth Andrews, Lee Lanza, Catherine Johannes, 2008-09-30 Public concern is increasing over the safety of medicines particularly serious adverse events detected after extensive use of products in the general marketplace This concern has led to the need for prompt evaluation of safety signals within large populations following drug approval The most relevant and available data resources primarily include electronic health care claims and electronic medical records and can be used to identify new safety issues and to evaluate known or suspected signals In this review paper we 1 summarize the data resources available for detection and evaluation of safety signals and 2 critically describe these resources and methods used in drug safety research For each type of data resource we summarize the characteristics and describe the associated applications and appropriate methods To place each data resource and method in perspective we provide examples from disease areas with substantial public health impact We conclude that in certain circumstances these data resources can be valuable for the relatively cost effective evaluation of serious adverse events in users of specific medications However implementation of such research requires a thorough understanding of the strengths and weaknesses of the data sources and the pharmacoepidemiologic methods used for analysis **Addiction** John Hoffman, Susan Froemke, 2007-03-20 This companion book to the HBO documentary of the same name sheds light on the hidden American epidemic of addiction Blending compelling personal narratives with statistics and expert opinion all gleaned from over two years of research and reporting ADDICTION offers a comprehensive and provocative look at the impact of chemical dependency on addicts their loved ones society and the economy Breaking the stigma that addicts are simply weak and immoral it delves into new brain research proving that drugs and alcohol change the chemical composition of addicts brains making it veritably impossible for them to quit The nation's top experts persuasively argue that the time has come for the blame to stop and the healing to begin ADDICTION also features material not included in the documentary testimonials original graphics and images additional elaboration on theories and treatments of addiction and more Featuring a foreword by Sheila Nevins the president of Documentary and Family Programming at HBO an afterward by the best selling author Susan Cheever and the writing of David Sheff this book is essential reading for anyone who has been impacted by what is now realized to be a very real and widespread disease Emergency Triage Advanced Life Support Group (ALSG), 2015-07-15 Emergency Triage Telephone Triage and Advice complements the highly successful Emergency Triage The algorithms are rooted in the Manchester Triage System MTS which is used in hospitals around the world and which is acknowledged as an effective means of clinical prioritisation This telephone iteration of a triage system which prioritises millions of patients each year provides a robust safe evidence based system for managing the clinical risk in patients who are at a distance from health care providers The basic principles that drive the MTS remain but this book addresses the specific

difficulties of assessment by telephone The possible triage outcomes are face to face now face to face soon and face to face later together with a self care option Information and advice is suggested at every level The advice ranges from life saving interventions which can be carried out until health care arrives to self care instructions Emergency Triage Telephone Triage and Advice provides all the necessary information that telephone triage staff must have to hand as well as including examples of questions to be asked It will be a valuable resource for staff working in emergency departments health centres and telephone triage organisations Furthermore hospitals that are already using Emergency Triage will benefit from being linked with a telephone triage system that follows the same protocols Updated to Version 1.7 in 2023 **Coffin Corner Boys**

Carole Engle Avriett, 2018-05-14 Gripping filled with dramatic escapes moments of surprising humanity and acts of bravery Publishers Weekly A Story of Adventure Survival Loyalty and Brotherhood Taking off from England on March 16 1944 young Lt George Starks and the nine man crew of his Flying Fortress were assigned to the coffin corner the most exposed position in the bomber formation headed for Germany They never got there Shot down over Nazi occupied France the airmen bailed out one by one scattered across the countryside Miraculously all ten survived but as they discarded their parachutes in the farmland of Champagne their wartime odyssey was only beginning Alone with a broken foot and a 20mm shell fragment in his thigh twenty year old Starks set out on an incredible 300 mile trek to Switzerland making his way with the help of ordinary men and women who often put themselves in great danger on his behalf Six weeks later on the verge of giving up Starks found himself in the hands of a heroic member of the French Resistance he calls him the bravest man I've ever known who got him safely across the heavily guarded border Similar ordeals awaited the other nine crewmen who faced injury betrayal cap tivity hunger and depression It was nothing short of miraculous that all ten came home at the end of the war George Starks emerged from his ordeal with two passions to stay in touch with his crew whatever the obstacles and to return to France to find and thank the brave souls to whom he owed his life His enduring loyalty enabled him to do both

Once a Hussar Ray Ellis, 2014-09-02 Once a Hussar is a vivid account of the wartime experiences of Ray Ellis a gunner who in later life recorded this well written candid and perceptive memoir of the conflict he knew as a young man seventy years ago As an impressionable teenager filled with national pride he was eager to join the army and fight for his country He enlisted in the South Notts Hussars at the beginning of the Second World War and started a journey that would take him through fierce fighting in the Western Desert the deprivation suffered in an Italian prisoner of war camp and a daring escape to join the partisan forces in the Appenines His story is an honest and moving memoir that relays graphic eyewitness accounts of the horrors of warfare but it also reveals the surprising triumphs of the human spirit in times of great hardship Ellis s self deprecating humor skillfully counters the harsh realities related in a personal recollection of a war that claimed so many young lives Featuring twenty six rare photographs from Ellis s life and experiences Once a Hussar is a compelling and deftly told account of one soldier s life in the Second World War Skyhorse Publishing along with our Arcade Good Books Sports Publishing and Yucca imprints is proud to publish a broad range of biographies autobiographies and memoirs Our list includes biographies on well known historical figures like Benjamin Franklin Nelson Mandela and Alexander Graham Bell as well as villains from history such as Heinrich Himmler John Wayne Gacy and O J Simpson We have also published survivor stories of World War II memoirs about overcoming adversity first hand tales of adventure and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home

The Influence of Attitudes, Beliefs, and Social Factors on Caregivers' Decisions on the Use of OTC Medications in Preschool Children Connie R. Ecklund, 1998 The purpose of this descriptive correlational study was to determine the extent that social factors health beliefs and attitudes influenced caregiver s decisions in home management with over the counter OTC medications Home management decisions

were studied in relation to seeking professional care The association of parents decisions concerning OTC medications with social factors as well as beliefs and attitudes related to illness susceptibility and severity and medication effectiveness was examined A theoretical framework based on the Health Belief Model Rosenstock 1974 guided the conceptualization of this study A convenience sample of caregivers with an index child of 3 5 years of age was recruited through county based Head Start programs Approximately 50 caregivers completed the study instrument at monthly parent counsel meetings Data were analyzed using Pearson product moment correlational coefficient Significant correlations were noted between the age of the caregiver perception of severity of the child s illness and perception of the child s susceptibility to illness and calling the doctor for advice or intervention There were also significant correlations between both the economic status of the household and the perceived effect of OTC medications with caregiver s report of when they would give OTC medications No significant relationships were found between trust in doctors barriers to seeking care and gender of the child and either the choice of giving OTC medication or calling the doctor It has been estimated that more than 50% of all 3 year olds have been given some type of OTC medication Kogan et al 1994 Findings from this study suggest clinical counseling directions for nurses working in primary care settings
