Forensic Document Examination in the 21st Century Miriam Angel, Jan Seaman Kelly, 2020-12-21 Forensic Document Examination in the 21st Century covers the latest technology and techniques providing a complete resource on contemporary issues and methods in forensic document examination. Forensic document examiners provide their findings as expert testimony in court. Due to rapid changes in technology including digital documents, printing and photocopying capabilities, and more, there is a great need for this up-to-date reference. The examination of documents can include comparison of handwriting or hand printing, detection of alterations or photocopier and computer manipulation, restoration or decipherment of erased and obliterated writing, visualization of latent impressions, the identification of printing processes, and differentiation of inks. Computer-generated documents are prevalent, and electronically captured signatures are becoming more widespread, meaning the knowledge of advances in technology and adoption of new validated techniques and methods of document examination are crucial to the reliability of forensic opinions. Forensic Document Examination in the 21st Century includes the latest research on the subject and with contributions from leading experts on their various areas of expertise. The book will be a welcome addition to the literature and support the foundational basis for methods and procedures for use by expert testimony in court, serving as a resource for forensic document examiners, trainees, and those in the criminal and legal communities who use the services of expert document examiners and witnesses. **Reframing**

Campus Conflict Jennifer Meyer Schrage, Nancy Geist Giacomini, 2023-07-03 This fully revised and updated second edition builds upon the original vision of the first, which was to give voice to diverse and inclusive perspectives, identities, and practices, and to enact the principle that student conduct and conflict response must be based upon foundations of social justice and restorative justice to disrupt and transform overly legalistic and escalated management applications in student conduct administration. The Spectrum Model Schrage Thompson 2008 approach centers advocacy for inclusive conflict excellence by expanding traditional adjudication pathways to include dialogue, conflict coaching, mediation, restorative practices, and shuttle diplomacy for a more robust and inclusive expression of conflict and conduct practices. In the intervening decade, this co-edited work has become more relevant than ever as colleges and universities continue to be the targets of litigation, activists, lawmakers, and public officials who have, for instance, changed the Title IX rules for responding to sexual misconduct. Civility, hate crimes, activism, immigration, nationalism, and free speech are all again on the forefront of challenges impacting the current campus climate. New chapters cover these and other issues, including the unprecedented COVID-19 pandemic response and impact on equity and justice in higher education and amplified calls for racial justice and police reform. The book is further enhanced by chapter case studies, summaries, and questions for dialogue to encourage further reflection by the reader and bolster the usefulness of the work as a textbook and campus training guide. The second edition is a must-have resource for broad stakeholders invested in inclusive conflict excellence and principled leadership in

education in the midst of a shifting and increasingly polarized landscape This includes legal counsel higher education presidents senior student affairs administrators and faculty leadership as well as student conduct practitioners across conduct boards hearing and appeal officers residential and organizational staff engaged in student facing campus climate work Reframing Campus Conflict further offers transferable content that supports inclusive conflict excellence inquiry and application in graduate programs K 12 special education and human resource management practices This book is for all educators administrators practitioners and leaders committed to engaging campus conflict work through the inclusive lenses of social restorative transformative and procedural justice This is also available as a set with Student Conduct Practice Second Edition

Digitised Newspapers - A New Eldorado for Historians? Estelle Bunout,Maud Ehrmann,Frédéric Clavert,2022-12-31 The application of digital technologies to historical newspapers has changed the research landscape historians were used to An Eldorado Despite undeniable advantages the new digital affordance of historical newspapers also transforms research practices and confronts historians with new challenges Drawing on a growing community of practices the impresso project invited scholars experienced with digitised newspaper collections with the aim of encouraging a discussion on heuristics source criticism and interpretation of digitized newspapers This volume provides a snapshot of current research on the subject and offers three perspectives how digitisation is transforming access to and exploration of historical newspaper collections how automatic content processing allows for the creation of new layers of information and finally what analyses this enhanced material opens up impresso Media Monitoring of the Past is an interdisciplinary research project that applies text mining tools to digitised historical newspapers and integrates the resulting data into historical research workflows by means of a newly developed user interface The question of how best to adapt text mining tools and their use by humanities researchers is at the heart of the impresso enterprise
