scientific results of the 12th IEEE ACIS International Conference on Computer and Information Science ICIS 2013 which was held on June 16-20 2013 in Toki Messe Niigata Japan. The aim of this conference was to bring together scientists, engineers, computer users and students to share their experiences and exchange new ideas, research results about all aspects, theory, applications and tools of computer and information science and to discuss the practical challenges encountered along the way and the solutions adopted to solve them. The conference organizers selected the best 20 papers from those papers accepted for presentation at the conference. The papers were chosen based on review scores submitted by members of the program committee and underwent further rigorous rounds of review.

101 Design Methods Vijay Kumar, 2012-10-09. The first step by step guidebook for successful innovation planning. Unlike other books on the subject, 101 Design Methods approaches the practice of creating new products, services and customer experiences as a science rather than an art, providing a practical set of collaborative tools and methods for planning and defining successful new offerings. Strategists, managers, designers and researchers who undertake the challenge of innovation despite a lack of established procedures and a high risk of failure will find this an invaluable resource. Novices can learn from it, managers can plan with it and practitioners of innovation can improve the quality of their work by referring to it.

Plunkett's Telecommunications Industry Almanac 2008: Telecommunications Industry Market Research, Statistics, Trends & Leading Companies Jack W. Plunkett, 2007-08. A market research guide to the telecommunications industry, a tool for strategic planning, competitive intelligence, employment searches or financial research. It includes a chapter of trends, statistical tables and an industry specific glossary. It also provides profiles of the 500 successful companies in telecommunications.

The Report: Philippines 2016 Oxford Business Group, 2016-04-08. The Philippines' emergence as a growth leader has been building gradually since the 1990s following a long period of low growth and political upheaval. As of the 2010s, improved governance under the administration of President Benigno Aquino III has helped to accelerate foreign direct investment (FDI) in business process outsourcing while reviving FDI into the manufacturing sector. This and a demographic bulge in the young adult bracket helped bring the average pace of growth in the first half of the 2010s to 6.3%, beating all the country's main South East Asian peers.

Future Multimedia Networking Andreas Mauthe, Sherali Zeadally, Eduardo Cerqueira, Marília Curado, 2009-06-23. It is our great pleasure to welcome you to the Second International Workshop on Future Multimedia Networking (FMN). Following the first successful workshop held in Cardiff, Wales in 2008, this year's workshop continues the tradition of being a premier forum that gives researchers and practitioners a unique opportunity to share their experiences and discuss state-of-the-art research results and major recent accomplishments in the area of multimedia networking. In recent years, real-time multimedia services have contributed extensively to our life experience and are expected to be among the most important applications in the future Internet. The management of content distribution services and the efficient delivery of real-time multimedia services over diverse and heterogeneous wired and wireless systems remain a significant challenge for future multimedia.

networking systems This year's workshop focused on various aspects of multimedia systems content networking and autonomous communication A special emphasis was placed on upcoming autonomous content networks and technologies that contribute to their development The call for papers attracted 64 submissions from 32 countries for the main workshop The Program Committee accepted 16 papers an acceptance rate of 25% that cover a range of topics including wireless and ad hoc networks in autonomous content networking streaming and voice services group and multiparty services and quality in video and Internet services This year we also had a Demonstration Session on Future Multimedia Networking for which 12 papers were accepted out of submissions received from over 15 countries It is our sincere hope that the proceedings of this workshop will serve as a valuable reference for multimedia researchers and developers
