Chemical nomenclature Lavoisiers list of elements sulfur diamonds graphite coal medieval metals platinum zinc cobalt nickel
manganese molybdenum tungsten gases in the atmosphere air pressure and humidity Henry Cavendish hydrogen nitrogen
fertilizers and explosives dynamite laughing gas IPC consists of twelve chapters of text and twelve companion student
activity books This course introduces students to the people places and principles of physics and chemistry It is written by
internationally respected scientist author John Hudson Tiner who applies the vignette approach which effectively draws
readers into the text and holds attention The author and editors have deliberately avoided complex mathematical equations
in order to entice students into high school level science Focus is on the people who contributed to development of the
Periodic Table of the Elements Students learn to read and apply the Table while gaining insight into basic chemistry and
physics This is one of our most popular courses among high school students especially those who have a history of under
performance in science courses due to poor mathematical and reading comprehension skills The course is designed for two
high school transcript credits Teachers may require students to complete all twelve chapters for two transcript credits or
may select only six chapters to be completed for one transcript credit for Physical Science Physics or Chemistry Compliance
with state and local academic essential elements should be considered when specific chapters are selected by teachers As
applicable to local policies transcript credit may be assigned as follows when students complete all 12 chapters Physical
Science for one credit and Chemistry for one credit or Integrated Physics and Chemistry for two credits May require
supplemental local classes labs *Student Edition Level Red 2008* Hrw, 2008 **Integrated Science**, 2008
