The purpose of this document is to explain why the OAQPS Cost Manual is not sufficient for estimating the cost of air quality control (AQC) equipment. This document will first discuss the impact of escalation on the cost of AQC projects. Next, a discussion of the scope items that are missing from the OAQPS cost manual for SCR is included. Finally, a comparison is made between an estimate performed using the OAQPS method and the B&V estimate for PNM San Juan Generating Station (SJGS) BART analysis.
