OASIS 360: Therapy Considerations
Workshop
Thursday, November 16, 2017 – 9:00 am to 5:00 pm

CMS has updated the OASIS C2 Manual with additional guidance on critical OASIS items. This OASIS 360 program involves focused, fast paced, interactive training for field clinicians who perform the OASIS assessment. With a therapy focus on critical OASIS items, this hands-on-training and easy to use reference tools provide ample opportunity for clinical assessment, skill enhancement and collaborative practice to enhance OASIS assessment and documentation practices. **OASIS video vignettes of actual home health patient scenarios provide interactive and collaborative assessment and opportunities.**

Participants are energized by feedback and refine practice skills to improve accuracy and consistency within their agency. This program provides a supportive analytic environment to clarify select OASIS items and further differentiate assessment and documentation dilemmas frequently discussed by therapists.

This program will address priority OASIS items that impact quality outcomes and agency reimbursement with a focus on therapy assessment and documentation requirements.

Upon completion of this program participants will be able to:
1. List three ways the IMPACT Act affects OASIS data collection;
2. Detail priority OASIS item clarifications that impact both agency quality outcomes and reimbursement;
3. List specific assessment practices that enhance accuracy;
4. Discuss therapy practices that support accurate OASIS completion;
5. Detail clinical logic methodology to enhance accurate OASIS response sets;
6. Access tips & tools to comply with OASIS mandates.

Who Should Participate: Therapists; Clinicians; Educators, Performance Improvement Staff and those responsible for the oversight and delivery of care and services in the certified home health care setting.

Faculty: Trish Tulloch RN, BSN, MSN, HCS-D, is a seasoned clinician and a certified coder with more than thirty years in the healthcare industry, including twelve years in home health management and more than nineteen years in health care consulting. She is also an AHIMA Approved ICD-10-CM Trainer and provides specialized support services to multiple providers during and post implementation of ICD-10.
