

# OB Case Study Mrs. Nguyen

Mrs. Nguyen is a 23-year-old woman who presents to labor and delivery with complaints of increasing abdominal pain for the last two days. Upon meeting her, the nurse discovers that Mrs. Nguyen recently moved from China and has not received any prenatal care. She also speaks limited English and is accompanied by her significant other who speaks English fluently.

(1a) What assessment data regarding Mrs. Nguyen's medical and prenatal history should be obtained at this time? (1b) What lab work and tests should be ordered by the doctor?

History should contain any chronic conditions, allergies, medications, social history, etc. Prenatal history should be obtained to assess pregnancy history, STD's, complications with previous pregnancies, etc. Assess for prenatal care in China.

Lab work: Blood type/screen, CBC w/differential, GBS, Rubella, Gonorrhea, Chlamydia, HIV panel, Hepatitis panel, CMP, urine analysis, UDS

After interviewing Mrs. Nguyen and her husband, the nurse discovers that this is her third pregnancy. She has a 4-year-old daughter and the second pregnancy resulted in a fetal demise at 17 weeks gestation.

(2) When calculating her gravida and para, which of the following is the correct?

- A. G2 P0
- B. G2 P1
- C. G3 P2
- D. G3 P1**

Mrs. Nguyen and her husband deny any issues with the current pregnancy and are unsure of the possible cause for the 17-week demise. Mrs. Nguyen appears very somber when asked about her last pregnancy. She does not seem very excited when talking about her current pregnancy either.

*Clinical Cases in Obstetrics, Gynaecology and Women's Health* Caroline de

Costa,Stephen Robson,Boon Lim,2013 An updated edition for our popular Clinical Cases collection this book is aimed at medical students following the core curriculum in Australia and New Zealand and the United Kingdom junior doctors at resident or house officer level and general practitioners This handy lab coat pocket sized book broadly covers the whole syllabus for the medical student and the whole range of obstetric and gynaecological problems likely to come into the path of the busy junior hospital doctor or general practitioner but it is not a textbook providing simply a list of differential diagnoses and treatments The approach has been developed from the experienced authors teaching of problem based learning scenarios PBLs to clinical students PBLs introduce students to typical clinical situations and then encourage those students to think about how they would take appropriate histories examine investigate and finally treat their patients In this book by using case histories that are more developed and complex we aim to show readers in greater detail how women may present with particular conditions and demonstrate what should take place in the way of consultation investigations and treatment

However by questioning our readers as we go along we also hope to encourage them to think about why they would choose a certain clinical course of action and to base their decisions firmly on current scientific evidence In addition to the purely clinical aspects of the cases the emotional social and psychological aspects of the care of each woman is described Each of the 50 case histories commences with a straightforward description following a woman through the clinical presentation of a particular condition Along the way important points in clinical examination and diagnosis complications investigations and management are incorporated into the text as a conversation with the reader and essential points are highlighted in boxes Being an Australian author team tips are included for those junior doctors faced with obstetric or gynaecological problems in a smaller metropolitan or rural setting facilities for care and the advice of senior practitioners may be more limited in such surroundings and different care paths may be more appropriate especially in remote parts of Australia An app with multiple choice questions is available through the App Store and Google Play Search DeCosta <http://www.slideshare.net/medicalmgh>
