Positioning English for Specific Purposes in an English Language Teaching Context Nadežda Stojković, 2019-01-18 With the unrelenting spread of globalization the English language has been firmly established as the Lingua Franca Now more than ever the importance of learning English is paramount within nearly all professional and educational sectors English for Specific Purposes ESP has long been accepted as an effective method for teaching English as a foreign language In recent years it has experienced an increasing presence in secondary and tertiary education across the globe This is predominantly due to its learner centered approach that focuses on developing linguistic competence in the student's specific discipline may that be academics business or tourism for example Positioning English for Specific Purposes in an English Language Teaching Context attempts to present and define the relevance and scope of ESP within English Language teaching From mobile phones as educational tools to the language needs of medical students the contributors to this volume examine and propose different epistemological and methodological aspects of ESP teaching Its unique approach to ESP marks this volume out as an important and necessary contribution to existing ESP literature and one that will be of use to both researchers and practitioners of ESP Balance With Blended Learning Catlin R. Tucker, 2020-01-09 Rethink the roles responsibilities and workflow in your blended learning classroom and enjoy balance in your life Blended learning offers educators the opportunity to reimagine teaching and learning It allows teachers to partner with their students to assess track and reflect on learning

This partnership gives teachers more time and energy to innovate and personalize learning while providing students the opportunity to be active agents driving their own growth. If one thing is certain after the 2019-2020 school year, blended learning is here to stay. Learning must be a shared endeavor between the teacher and the learner. This book provides teachers with strategies to rethink traditional workflows to make teaching practices sustainable. Written by blended learning expert Catlin Tucker, this resource provides teachers with concrete strategies and resources they can use to partner with their students to actively engage them in setting goals, monitoring their development, reflecting on their growth, using feedback to improve work, assessing the quality of their work, and communicating their progress with parents. Balance With Blended Learning includes practical strategies for teachers overwhelmed by their workloads, routines and protocols designed to move feedback and assessment into the classroom to eliminate much of the work teachers take home. Ready to use templates and resources designed to help students take an active role in tracking, monitoring, and reflecting on their progress. Vignettes written by teachers across disciplines. Stories from the author's extensive experience both as a teacher and blended learning coach. Redefining roles in a blended learning classroom encourages students to take ownership over their learning journeys and helps teachers feel more effective, efficient, and energized.

A Handbook for History Teachers James A. Duthie, 2012-09-28. History is not a mere chronicle of facts but a dialogue between competing interpretations of the past; it should be taught as such. Teaching history in this way makes it both intellectually demanding and more interesting while, at the same time, helps students acquire the knowledge and skills necessary to become functioning citizens in a democracy. The opening chapters provide the rationale for the study of history, its epistemological basis, and the logic of the discipline. The bulk of the book deals with practical ways to help students acquire, process, and apply information. In particular, it addresses the specific thinking skills required by the discipline, with many effective techniques for helping students to master them. The implications of this approach for teacher evaluation of student work are also addressed.

Understanding and Investigating Response Processes in Validation Research Bruno D. Zumbo, Anita M. Hubley, 2017-05-23. This volume addresses an urgent need across multiple disciplines to broaden our understanding and use of response processes evidence of test validity. It builds on the themes and findings of the volume *Validity and Validation in Social Behavioral and Health Sciences* (Zumbo & Chan, 2014) with a focus on measurement validity evidence based on response processes. Approximately 1000 studies are published each year examining the validity of inferences made from tests and measures in the social, behavioural, and health sciences. The widely accepted *Standards for Educational and Psychological Testing* (1999, 2014) present five sources of evidence for validity: content-related response processes, internal structure, relationships with other variables, and consequences of testing. Many studies focus on internal structure and relationships with other variables, sources of evidence which have a long history in validation research. Known methodologies and numerous exemplars in the literature. Far less is understood by test users and researchers conducting validation work about how to think about and apply new and emerging

sources of validity evidence This groundbreaking volume is the first to present conceptual models of response processes methodological issues that arise in gathering response processes evidence as well as applications and exemplars for providing response processes evidence in validation work
