Preparation Master CTET Paper 1 Book : Primary Teachers Class 1-5 (English Edition) - 24 Solved Papers (Previous Year Papers) with Free Access to Online Tests EduGorilla Prep Experts, Jihadism Transformed Simon Staffell,Akil N. Awan,2016-12-01 Jihadist narratives have evolved dramatically over the past five years driven by momentous events in the Middle East and beyond the death of bin Laden the rise and ultimate failure of the Arab Spring and most notably the rise of the so called Islamic State For many years al Qaeda pointed to an aspirational future Caliphate as their utopian end goal one which allowed them to justify their violent excesses in the here and now Islamic State turned that aspiration into a dystopic reality and in the process hijacked the jihadist narrative breathing new life into the global Salafi Jihadi movement Despite air strikes from above and local disillusionment from below the new caliphate has stubbornly persisted and has been at the heart of ISIS s growing global appeal This timely collection of essays examines how jihadist narratives have changed globally adapting to these turbulent circumstances Area and thematic specialists consider transitions inside the Middle East and North Africa as well as in South Asia sub Saharan Africa and Europe As these analyses demonstrate the success of the ISIS narrative has been as much about resonance with local contexts as it has been about the appeal of the global idea of a tangible and realised caliphate **Exploring (Im)politeness in Specialized and General Corpora** Yeşim Aksan,Şükriye Ruhi,Thomas Schmidt,2015-02-05 Corpus linguistic methods provide new avenues for im politeness scholarship to reflexively evaluate its understanding of communication and language use on the theoretical contributions of corpus linguistics to the linguistic sciences In this sense this volume is a unique contribution to im politeness scholarship It showcases studies in the field which employ specialized and general corpora with methodologies that range from the speech act to the discourse analytic and conversation analytic traditions The book brings into closer contact scholarship that has hitherto remained in relatively different streams of the scientific investigation of im politeness A unifying theme of the chapters here is that im

politeness phenomena are situated within the institutional and genre specific expectations of participants in an interaction Each of the chapters identifies the situatedness of im politeness from varying perspectives The chapters in the volume are sequenced from specialized to general corpora and simultaneously move from conversation and discourse analytic perspectives to contributions that address issues surrounding the identification and extraction of im politeness in general corpora In collating the chapters of the volume care was taken to focus attention on languages that have been studied extensively in im politeness scholarship varieties of English British English and Englishes in Hong Kong and Greek and languages that are only recently gaining more visibility in the field Slovenian and Turkish

Unimaginable Bodies Anna Catherine Hickey-Moody, 2009-01-01 Unimaginable Bodies radically resituates academic discussions of intellectual disability Through building relationships between philosophy cultural studies and communities of integrated dance theatre practice Anna Hickey Moody argues that dance theatre devised with and performed by young people with and without intellectual disability can reframe the ways in which bodies with intellectual disability are known This proposition is considered in terms of classic philosophical ideas of how we think the mind and body as Hickey Moody argues that dance theatre performed by young people with and without intellectual disability creates a context in which the intellectually disabled body is understood in terms other than those that pre suppose a Cartesian mind body dualism Taking up the writings of Spinoza and Deleuze and Guattari Hickey Moody critiques aspects of medical discourses of intellectual disability arguing that Cartesian methods for thinking about the body are recreated within these discourses Further she shows that Cartesian ways of conceiving corporeality can be traced through select studies of the social construction of intellectual disability The argument for theorising corporeality and embodied knowledge that Hickey Moody constructs is a philosophical interpretation of the processes of knowledge production and subjectification that occur in integrated dance theatre Knowledge produced within integrated dance theatre is translated into thought in order to explore the affective nature of performance texts This book is essential reading for those interested in theories of embodiment disability studies and dance Cover Image Ziggy Kuster

Gallbladder Cancer Vijay Kumar Shukla, Manoj Pandey, Ruhi Dixit, 2023-01-30 The book discusses the recent progress in understanding the therapeutic targets for gallbladder cancer to provide opportunities for research and for developing innovative strategies that may enhance the benefit of conventional chemotherapy The book focuses on identifying candidate molecules and the overall status of the targeted therapies available for gallbladder cancer as there is an urgent need to discover new molecular targets that can guide the emergence of new treatment strategies to improve patient outcomes and act as biomarkers for the early detection of diseases Recently new treatment therapeutics targets for gallbladder cancer patients have been identified and the field is evolving rapidly The book is relevant for the clinical researcher surgeon scientist and academician
