Engaging Ideas John C. Bean, Dan Melzer, 2021-06-09

Use your course's big ideas to accelerate students' growth as writers and critical thinkers. The newly revised third edition of *Engaging Ideas* delivers a step by step guide for designing writing assignments and critical thinking activities that engage students with important subject matter questions. This new edition of the celebrated book now written by the co-author team of Bean and Melzer uses leading and current research and theory to help you link active learning pedagogy to your courses' subject matter. You'll learn how to Design formal and informal writing assignments that guide students toward thinking like experts in your discipline. Use time saving strategies for coaching the writing process and handling the paper load including alternatives to traditional grading such as portfolio assessment and contract grading. Help students use self assessment and peer response to improve their work. Develop better ways than the traditional research paper to teach undergraduate reading and research. Integrate social media multimodal genres and digital technology into the classroom to promote active learning. This book demonstrates how writing can easily be integrated with other critical thinking activities such as inquiry discussions simulation games classroom debates and interactive lectures. The reward of this book is watching students come to class better prepared more vested in the questions your course investigates more apt to study purposefully and more likely to submit high quality work. Perfect for higher education faculty and curriculum

designers across all disciplines Engaging Ideas will also earn a place in the libraries of graduate students in higher education

The Process of Research in Psychology Dawn M. McBride, 2019-01-02 The Process of Research in Psychology employs the pedagogical approach of spaced repetition to present a student friendly introduction to conducting research in psychology Drawing on more than 17 years of teaching experience best selling author Dawn M McBride covers topics with step by step explanations to help students understand the full process of designing conducting and presenting a research study Early chapters introduce important concepts for developing research ideas subject sampling ethics and data collection more detailed coverage of these topics is included in More About chapters to provide instructors with flexibility in their teaching Concepts and skills relevant to more than one stage of the research process are covered in multiple contexts providing repeated exposure to the topics students often struggle with but that are the most important in gaining research skills

Reflections on the International Association for Media and Communication Research Jörg Becker, Robin Mansell, 2023-04-29 Throughout its 65 year history the International Association for Media and Communication Research IAMCR has sought to facilitate international exchanges and research collaborations among academics and journalists in the field of media and communication Created during a time of strong ideological tension following World War II in 1957 and with the support of UNESCO the contributors to this edited collection highlight how the IAMCR and its members shaped the field of media and communications research From its beginnings focusing on the mass media including the press and journalism education today the Association attracts researchers and practitioners who undertake critical analysis of contemporary media and communications including online platforms and their governance Consistent themes throughout the Association s history have been its concern with human rights law culture and the political economy of the media and communication industries Not content simply to understand developments in the media and communications field around the world the Association s membership has sought to change the world through its published research and its participation in global regional national and local policy debate and practice This volume is organised in four parts following an introduction authored by editors who are active members of IAMCR Part I highlights eight prominent scholarly traditions of research which have attracted the interest of scholars from around the world as well as the way the Association has sought to be inclusive of early career scholars Part II offers seven chapters which bring to light the political struggles of a membership seeking to engage in scholarship across the East West divide and to contribute to global debates aimed at fostering an inclusive fair and equitable international information and communication order through engagement with United Nations sponsored initiatives Part III turns to accounts of the way members from selected countries and regions have contributed to the Association s scholarly work The last part highlights the significant scholarly and institution building contributions of James Halloran IAMCR s President from 1972 to 1988 and other prominent contributors to the study of culture and the political economy of media and communications
