contemporary era      **(Un)avoidable Conflict in Ukraine** Cristian Nitoiu, 2025-06-26 Taking a conceptual approach to European Russian relations in the post Cold War era this book traces how each side's ideal self came into conflict with fault lines in international politics Russia's 2022 full scale invasion of Ukraine is not only a symptom of conflict taking over the European continent but also a point of no return that will be difficult to roll back Could the state of conflict on the European continent have been avoided To understand the nature and evolution of conflict with Russia this book presents a theoretically informed discussion of the way relations between the European Union EU and Russia deteriorated beyond repair during the more than three decades since the collapse of the Soviet Union First the book develops the concept of ideal self of states and international organisations like the EU which posits that a series of ideal perceptions about how the self should act in the world order drives the behaviour of states and their policymakers Second the book turns to the study of fault lines or spaces of divergence in the world order that harbour the potential for conflict With these two theoretical toolkits the book shows how leaders in the EU and Russia by February 2022 came to view conflict as a feasible preferable and possibly the only option available to them Even though neither the EU nor Russia had desired conflict both made little effort to avoid it As a result the European continent has sleepwalked into conflict with the potential for that conflict to spill over from Europe and escalate beyond a point of no return between the West and its global challengers      **Dimensions and Challenges of**

**Russian Liberalism** Riccardo Mario Cucciolla, 2019-05-22 Liberalism in Russia is one of the most complex multifaced and indeed controversial phenomena in the history of political thought Values and practices traditionally associated with Western liberalism such as individual freedom property rights or the rule of law have often emerged ambiguously in the Russian historical experience through different dimensions and combinations Economic and political liberalism have often appeared disjointed and liberal projects have been shaped by local circumstances evolved in response to secular challenges and developed within often rapidly changing institutional and international settings This third volume of the Reset DOC Russia Workshop collects a selection of the Dimensions and Challenges of Russian Liberalism conference proceedings providing a broad set of insights into the Russian liberal experience through a dialogue between past and present and intellectual and empirical contextualization involving historians jurists political scientists and theorists The first part focuses on the Imperial period analyzing the political philosophy and peculiarities of pre revolutionary Russian liberalism its relations with the rule of law *Pravovoe Gosudarstvo* and its institutionalization within the Constitutional Democratic Party Kadets The second part focuses on Soviet times when liberal undercurrents emerged under the surface of the official Marxist Leninist ideology After Stalin's death the thaw intelligentsia of Soviet dissidents and human rights defenders represented a new liberal dimension in late Soviet history while the reforms of Gorbachev's New Thinking became a substitute for liberalism in the final decade of the USSR The third part focuses on the time of troubles under the Yeltsin presidency and assesses the impact of liberal values and ethics the bureaucratic difficulties in adapting to change and the paradoxes of liberal reforms during the

transition to post-Soviet Russia. Despite Russian liberals having begun to draw lessons from previous failures, their project was severely challenged by the rise of Vladimir Putin. Hence the fourth part focuses on the 2000s when the liberal alternative in Russian politics confronted the ascendance of Putin, surviving in parts of Russian culture and in the mindset of technocrats and system liberals. Today, however, the Russian liberal project faces the limits of reform cycles of public administration, suffers from a lack of federalist attitude in politics, and is externally challenged from an illiberal world order. All this asks us to consider what is the likelihood of a reboot of Russian liberalism.

Putin's Russia Stephen K. Wegren, 2015-07-16. Now in a thoroughly revised, expanded, and updated sixth edition, this classic text provides the most authoritative and current analysis available of the challenges facing Russia today. Leading scholars explore the daunting domestic and international problems confronting Putin. Evaluating the regime's continued efforts to rebuild a country once on the verge of collapse, they consider a comprehensive array of economic, political, foreign policy, and social issues. Putin has his own approach for dealing with the myriad problems facing Russia, emphasizing recentralization of power and a strong state. He has returned to power amid unresolved policy issues both domestically and from the international community. Only by understanding these concerns and previous efforts to deal with them will it be possible to understand the country's trajectory. Well-written and clearly organized, this text is an indispensable guide for anyone wanting to understand contemporary Russia.

*Struggle for Alliance* Abdolrasool Divsallar, 2024-08-22. This book provides a comprehensive study of the complex impacts of the war in Ukraine on Russo-Iranian relations and the resulting consequences for the international relations of the Middle East. In contrast to dominant academic approaches which view Russo-Iranian relations through the lens of an anti-hegemonic agenda and confrontation with the US-led international order, this study presents an alternative angle, stating that the war in Ukraine has sped up Moscow and Tehran's interdependency primarily because of the protective benefits that it brings to both states. The book analyzes various debates about the impact of the war on Russo-Iranian relations. From the perspective of the emerging literature on authoritarian regionalism, the book explores how domestic politics and common threat perceptions play a role in these states' decisions to adjust to the systemic changes caused by the war. Chapters address how changes in the strategic environment are affecting Moscow and Tehran's perception of each other, what factors contribute the most to both states' decision to pursue greater cooperation, and how they manage the new conflicts of interest raised by the war. The book also queries whether relations continue to be based on tactical partnership or whether a stronger alliance between Moscow and Tehran is unfolding, and what the consequences of such a struggle for alliance will be for the wider region.

**Russia and the EU** Thomas Hoffmann, Andrey Makarychev, 2018-07-27. The annexation of Crimea in 2014 and Russia's support for

military insurgency in eastern Ukraine undermined two decades of cooperation between Russia and the EU leaving both sides in a situation of reciprocal economic sanctions and political alienation What is left of previous positive experiences and mutually beneficial interactions between the two parties And what new communication practices and strategies might Russia and Europe use Previously coherent and institutionalized spaces of communication and dialogue between Moscow and Brussels have fragmented into relations that while certainly not cooperative are also not necessarily adversarial Exploring these spaces contributors consider how this indeterminacy makes cooperation problematic though not impossible and examine the shrunken yet still existent expanse of interaction between Russia and the EU Analysing to what extent Russian foreign policy philosophy is compatible with European ideas of democracy and whether Russia might pragmatically profit from the liberal democratic order the volume also focuses on the practical implementation of these discourses and conceptualizations as policy instruments This book is an important resource for researchers in Russian and Soviet Politics Eastern European Politics and the policy politics and expansion of the European Union

*Securitizing Balance of Power Theory* Ilai Z. Saltzman, 2012 *Securitizing Balance of Power Theory A Polymorphic Reconceptualization* by Ilai Z Saltzman presents a cutting edge attempt to re conceptualize one of the fundamental concepts of International Relations theory balance of power theory by examining insights from historical analysis of interwar and post Cold War cases

*Russia and the EU in a Multipolar World* Andrey Makarychev, 2014-11-01 This timely book offers a multifaceted analysis of EU Russian relations drawing on the investigation of competing models of international society Makarychev argues that the huge variety of interest based and normative models is best explained through the study of foreign policy and identity discourses His approach defies simplistic explanations of EU Russian relations as either destined for cooperation or doomed to constant collisions Instead Makarychev unveils multiple alternatives that both the EU and Russia face in their policies toward each other Assessing the repercussions ongoing EU Russian discord has on Europe and the world Makarychev s volume reveals the interconnectedness of the discourses dominating the EU and Russia while also accounting for the deep seated disconnect between them

*The Cold War in the 1950s* Nicolas Lewkowicz, 2024-03-12 The book claims that the United States and the Soviet Union attained the mastery of the international order by projecting universalist values that responded to the particularist markers of the domestic order that was generated in the 1950s The geopolitical orientation adopted by the superpowers in the 1950s was shaped by the way in which their societies developed politically socially and economically in the 1950s The main argument of this book is that the quest for the mastery of the international order that informed superpower relations in the 1950s was guided by the need to respond to the local circumstances that emerged in the United States and the Soviet Union The particularist markers that arose in the 1950s led to the establishment of a geopolitical project underpinned by certain universalist values that could be applied in order to build the superpowers sphere of influence

**The Return of Ideology** Cheng Chen, 2016-07-06 As a nation makes the transition from communism to democracy or

another form of authoritarianism its regime must construct not only new political institutions but also a new political ideology that can guide policy and provide a sense of mission The new ideology is crucial for legitimacy at home and abroad as well as the regime's long term viability In *The Return of Ideology* Cheng Chen compares post communist regimes with a focus on Russia under Putin and post Deng China investigating the factors that affect the success of an ideology building project and identifies the implications for international affairs Successful ideology building requires two necessary but not sufficient conditions The regime must establish a coherent ideological repertoire that takes into account the nation's ideological heritage and fresh surges of nationalism Also the regime must attract and maintain a strong commitment to the emerging ideology among the political elite Drawing on rich primary sources including interviews surveys political speeches writings of political leaders and a variety of publications Chen identifies the major obstacles to ideology building in modern Russia and China and assesses their respective long term prospects Whereas creating a new regime ideology has been a protracted and difficult process in China it has been even more so in Russia The ability to forge an ideology is not merely a domestic concern for these two nations but a matter of international import as these two great powers move to assert and extend their influence in the world

*The Dark Double* Andrei P. Tsygankov, 2019-03-01 Although many observers argue that US Russia relations are a simple reflection of elites political and economic preferences in both countries these preferences tend to arise from pre-existing belief systems that are deeply rooted in the public and accentuated by mass media In *Dark Double* Andrei P. Tsygankov focuses on the driving power of values and media in addition to political and economic interests in structuring US Russia relations By analyzing mainstream US newspapers and other media sources Tsygankov identifies five media narratives involving Russia since the Cold War's end and studies them through a framework of three inter-related factors historic and cultural differences between the two countries inter-state competition and polarizing domestic politics He shows how Americans negative views toward Russia draw from a deep wellspring of suspicion and are further enhanced by a biased media that regularly exploits such negativity Russia's centralization of power and anti American attitudes Given the intensity of our current impasse with Russia *Dark Double* represents an important intervention that forces us to think about the sources of conflict in a new way
