Hamilton,2021-04-13 If it bleeds it leads The phrase captures television news directors famed preference for opening newscasts with the most violent stories they can find And what is true for news is often true for entertainment programming where violence is used as a product to attract both viewers and sponsors In this book James Hamilton presents the first major theoretical and empirical examination of the market for television violence Hamilton approaches television violence in the same way that other economists approach the problem of pollution that is as an example of market failure He argues that television violence like pollution

generates negative externalities defined as costs borne by others than those involved in the production activity Broadcasters seeking to attract viewers may not fully bear the costs to society of their violent programming if those costs include such factors as increased levels of aggression and crime in society Hamilton goes on to say that the comparison to pollution remains relevant when considering how to deal with the problem Approaches devised to control violent programming such as restricting it to certain times and rating programs according to the violence they contain have parallels in zoning and education policies designed to protect the environment Hamilton examines in detail the microstructure of incentives that operate at every level of television broadcasting from programming and advertising to viewer behavior so that remedies can be devised to reduce violent programming without restricting broadcasters right to compete *More Than It Hurts You* Darin Strauss,2008-06-19 Read Darin Strauss s posts on the Penguin Blog Josh Goldin s happy yet unexamined existence is shattered one morning when his wife Dori rushes their eight month old son to the emergency room in severe distress Dr Darlene Stokes an African American physician and single mother suspects Munchausen by proxy a rarely diagnosed and controversial phenomenon where a mother intentionally harms her baby As each of them is forced to confront a reality that has become a nightmare Darlene Dori and Josh are pushed to their breaking points Darin Strauss s extraordinary novel is set in a world turned upside down where doctors try to save babies from their parents police use the law to tear families apart and the people you think you know best end up surprising you the most *Have Not Been the Same* Michael Barclay,Ian A.
