**Language, the Singer and the Song** Richard J. Watts, Franz Andres

Morrissey, 2019-01-31 The relationship between language and music has much in common rhythm structure sound metaphor Exploring the phenomena of song and performance this book presents a sociolinguistic model for analysing them Based on ethnomusicologist John Blacking's contention that any song performed communally is a folk song regardless of its generic

origins it argues that folk song to a far greater extent than other song genres displays communal or inclusive types of performance The defining feature of folk song as a multi modal instantiation of music and language is its participatory nature making it ideal for sociolinguistic analysis In this sense a folk song is the product of specific types of developing social interaction whose major purpose is the construction of a temporally and locally based community Through repeated instantiations this can lead to disparate communities of practice which over time develop sociocultural registers and a communal stance towards aspects of meaningful events in everyday lives that become typical of a discourse community

Old Chinese William H. Baxter, Laurent Sagart, 2014-09-02 This book introduces a new linguistic reconstruction of the phonology morphology and lexicon of Old Chinese the first Sino Tibetan language to be reduced to writing Old Chinese is the language of the earliest Chinese classical texts 1st millennium BCE and the ancestor of later varieties of Chinese including all modern Chinese dialects William Baxter and Laurent Sagart's new reconstruction of Old Chinese moves beyond earlier reconstructions by taking into account important new evidence that has recently become available better documentation of Chinese dialects that preserve archaic features such as the Min and Waxiang dialects better documentation of languages with very early loanwords from Chinese such as the Hmong Mien Tai Kadai and Vietnamese languages and a flood of Chinese manuscripts from the first millennium BCE excavated or discovered in the last several decades Baxter and Sagart also incorporate recent advances in our understanding of the derivational processes that connect different words that have the same root They expand our knowledge of Chinese etymology and identify for the first time phonological markers of pre Han dialects such as the development of r to j in a group of east coast dialects but to n elsewhere The most up to date reconstruction available Old Chinese A New Reconstruction brings the methodology of Old Chinese reconstruction closer to that of comparative reconstructions that have been used successfully in other language families It is critical reading for anyone seeking an advanced understanding of Old Chinese Chinese Recorder and Missionary Journal ,1900

**Linguistic Structure and Change** Thomas Berg, 1998 Thomas Berg challenges context free theories of linguistics he is concerned with the way the term explanation is typically used in the discipline He argues that real explanations cannot emerge from a view which asserts the autonomy of language but only from an approach which seeks to establish a connection between language and the contexts in which it is embedded The author examines the psychological context in detail He uses an interactive activation model of language processing to derive predictions about synchronic linguistic patterns the course of linguistic change and the structure of poetic rhymes The majority of these predictions are borne out leading the author to conclude that the structure of language is shaped by the properties of the mechanism which puts it to use and that psycholinguistics thus qualifies as one likely approach from which to derive an explanation of linguistic structure **Negro Folk Rhymes** Thomas W. Talley, 1922 A collection of African American songs and rhymes some of which in their original African language followed by translations all of which concluded with an essay not only describing the

content and the manner in which the songs and rhymes were told sung and danced to but also the effect they had on the minds of African Americans living through the days of slavery and following until 1922
