Barkley Rosser,2011-06-22 Drawing on the middle chapters from the first edition of J Barkley Rosser s seminal work From Catastrophe to Chaos this book presents an unusual perspective on economics and economic analysis Current economic theory largely depends upon assuming that the world is fundamentally continuous However an increasing amount of economic research has been done using approaches that allow for discontinuities such as catastrophe theory chaos theory synergetics and fractal geometry The spread of such approaches

Claar,Greg Forster,2019-04-06 This book considers the cultural legacy of the Keynesian Revolution in economics It assesses the impact of Keynes and Keynesian thinking upon economics and policy as well as the response of the Chicago and Austrian schools and the legacy of all three in shaping economic life The book is a call to restore economics to its roots in moral and cultural knowledge reminding us that human beings are more than consumers The Keynesian Revolution taught us that we should be happy if we are prosperous but instead we feel hollow and morally anxious our economy feels empty Drawing on paradigms from earlier historical periods while affirming modern market systems this book encourages a return to a view of human beings as persons with the right and responsibility to discover and do the things in life that are intrinsically good and enduring Because in the long run the legacy of our choices will continue long after we re all dead *Indian Political Thought - I* Mr. Rohit Manglik,2023-06-23 In this book we will study about the subject of Indian Political Thought I exploring its key themes developments and importance in the broader context of the discipline The book offers foundational and in depth understanding tailored to build academic insight and critical thought **Politics, Ethics and Culture in Our Time** Harry Redner,2023-01-30 Global capitalism is effecting changes in human life as momentous as those that occurred during the Neolithic Revolution the Axial Age 700 300 BC and the modern era post 1500 when industrial capitalism state power and science reshaped the civilized world The transformation is paradoxical however Science and technology ensure material progress but the market promotes cultural obsolescence and erodes belief in the Enlightenment ideals that inspired the quest for progress In Western democracies liberty and equality are proving irreconcilable citizens becoming demoralized fraternity fractured meanwhile despotic Eurasian states are recycling old faiths and concocting neo imperialist ideologies These contradictions must be confronted if the cultural values that sustain civilized life are to be conserved **Environmental Law and Management** Mr. Rohit Manglik,2023-06-23 Environmental laws and management practices Includes regulations compliance and sustainability preparing students for environmental policy and governance roles , Federalist Solutions to Pakistan's Political Crises Sikander Ahmed Shah,2024-04-30 Federalist Solutions to Pakistan s Political Crises investigates the transformative potential of communal democratic norms within Pakistan s politico economic sphere Analyzing the current consociational structure which inordinately predicates federal organization on ethnic identity the book reveals the particular challenges facing
