Expanding Horizons Karen J. Ripoll-Núñez, Anna Laura Comunian, Carrie M. Brown, 2012 *Expanding Horizons* Current Research on Interpersonal Acceptance offers readers an outstanding collection of papers that reflects current trends in research on interpersonal acceptance. Papers in this volume cover a variety of questions and topics with regard to issues of acceptance/rejection by significant figures in parent-child, sibling, peer, and adult intimate relationships. Also, several papers deal with the implications of interpersonal acceptance for the development and educational achievement of children, college students, as well as children with special needs. Lastly, an entire section of the book is devoted to methodological issues in the evaluation of interpersonal acceptance across cultures. The authors draw on the perspectives of different disciplines such as educational psychology, anthropology, sociology, developmental psychology, and family studies. Research findings discussed in this collection of papers have important implications for professionals working in different contexts to strengthen family relationships, teacher and peer relationships in schools, and couple relationships. As such, the book constitutes a useful reference source for graduate students, academic researchers, clinicians, teachers, special educators, school counselors, and service agencies. Scholars who contributed to this book come from different parts of the world, including the Americas, Asia, Australia, Europe, and the Middle East.

Technology-Enhanced Language Teaching and Learning Karim Sadeghi, Michael Thomas, Farah Ghaderi, 2023-02-23 The Covid-19 pandemic has directly impacted the way teachers and learners worldwide teach and learn languages, forcing numerous educational activities in technologically deprived contexts to stop altogether and those in technologically rich environments to go online on an emergency basis. This volume provides a collection of theoretical and practical insights into the challenges and affordances faced globally during the pandemic and lessons learnt about the application of digital technologies for language teaching and learning. The chapters explore the vital role of technology in its various forms, including the internet, social media, CALL (Computer Assisted Language Learning), MALL (Mobile Assisted Language Learning), TALL (Technology Assisted Language Learning), and TELL (Technology Enhanced Language Learning). Topics explored include the new avenues digital technology has opened up for language teachers and learners, options and challenges in applying technology in various contexts, and how the second language education industry could have been adversely impacted at the time of the pandemic without technological affordances. The contributions showcase studies from various geographical contexts, revealing how the global crisis was received and tackled differently in Australia, Hong Kong, Iran, Italy, Japan, New Zealand, the UAE, the UK, and the USA.
