Testing the Data Warehouse Practicum Wayne Yadow, Doug Vucevic &, 2012-08. The quality of a data warehouse (DWH) is the elusive aspect of it not because it is hard to achieve once we agree what it is, but because it is difficult to describe. We propose the notion that quality is not an attribute or a feature that a product has to possess, but rather a relationship between that product and each and every stakeholder. More specifically, the relationship between the software quality and the organization that produces the products is explored. Quality of data that populates the DWH is the main concern of the book; therefore, we propose a definition for data quality as fitness to serve each and every purpose. Methods are proposed throughout the book to help readers achieve data warehouse quality.

The Ultimate Ruger 10/22 Manual And User's Guide Mark White, 2000-05-01. The Ruger 10/22 is one of the most popular 22 caliber rifles of all time. It is relatively inexpensive, exceptionally reliable and accurate, and easy to work on, and parts are widely available. But as good as these versatile little rifles are, they can be made even better with a little work on their triggers, actions, and barrels. This work is easy to do, even for people with little or no machining or gunsmithing experience, and it is inexpensive. And after you have customized your 10/22, why not go the extra step and add a legal suppressor so that you can use your rifle for animal control in survival situations or just to save your hearing. With this book and very little time, effort, and money, you can turn your Ruger 10/22 into the ultimate do anything weapon.
