The Fugitive Legacy Charlotte H. Beck, 2001-01-01 Previously the protagonists of John Crowe Ransom Allen Tate Donald Davidson and Robert Penn Warren have received considerable scholarly attention only as individuals or in relation to small groups of close knit writers within single literary genres Now for the first time this far ranging group of accomplished writers is united as part of a larger phenomenon the Fugitive legacy which has extended its influence far beyond the parameters of southern literature In *The Fugitive Legacy* Charlotte H Beck demonstrates the strong influence of the Nashville Fugitives as teachers editors and mentors by examining the extraordinary impact on American letters of the critics poets and fiction writers whom they taught or sponsored By treating the careers of these brilliant authors as a single chapter in literary history Beck makes an invaluable contribution to the understanding of southern literature The cultural importance of the Fugitives has too often been confused with the narrow politics of Agrarianism and relegated to a reactionary piety for regionalism and dead tradition *The Fugitive Legacy* fills a void in southern literary theory by revealing the resounding echo of this group's voice in modern American literature **Postmodernism and Notions of National Difference** Geoffrey

William Lord, Kristi Jauregi Ondarra, 1996 *Postmodernism and Notions of National Difference* examines the critical construction of postmodern fiction raising the question of whether the construction of postmodernism has sufficiently accounted for national difference. Geoffrey Lord argues that current meta-national conceptions of postmodernism need serious reconsideration to take national cultural contexts into account. Through a comparative investigation of the theoretical debate, literary traditions, and close textual reading of a number of postmodern texts, Lord makes a persuasive case for his broad claim that national cultural differences are more persistent and powerful than usually allowed by established theories of postmodernity which claim a general collapse of traditional cultural orders and the meta-narratives that justify them.
