

Task 3 - Assessment Commentary

1. Analyzing Student Learning

- a. Identify the specific learning target(s) measured by the assessment you chose for analysis.

[The assessment I chose for the analysis of my learning segment is the summative assessment I conducted at the end of the learning segment taught. It includes a total of 9 problems, assessing on each of the three lessons taught in the learning segment.

For lesson 1 (Comparing Two Numbers Within 100), problems 1 and 2 of the summative assessment are measuring the conceptual understanding of the segment (place value) as it relates to the learning target which is: "Students can use words to compare two-digit numbers between 11 and 19 and determine which is greater than or less than." Students who met the learning target of this portion of the assessment earned 2 out of 2 points on 7.1 (Lesson 1) content. The class as a whole met the target by having at least 16 out of 22 students earn 2/2 points for lesson 1 of the summative assessment.

For lesson 2 (Comparing Two Numbers Within 100), problems 3, 4 and 5 on the summative assessment are measuring the procedural fluency (longs and outies) of the segment as it relates to the learning target which is: "Students can use words and models (longs and outies) to compare two numbers within 100 and determine which is greater than or less than." Students who met the learning target of this portion of the assessment earned 2 out of 3 points on 7.2 (Lesson 2) content. The class as a whole met the target by having at least 16 out of 22 students earn 2/3 points for lesson 2 of the summative assessment.

For lesson 3 (Comparing Numbers Using Place Value), problems 6, 7 and 8 on the summative assessment are measuring the mathematical reasoning of the segment (how they know their comparison) as it relates to the learning target which is: "Students can use place value to compare two numbers within 100." Students who met the learning target of this portion of the assessment earned 2 out of 3 points on 7.3 (Lesson 3) content. The class as a whole met the learning target by having at least 16 out of 22 students earn 2/3 points for lesson 3 of the summative assessment.

For the overall score of the assessment on the whole learning segment, students were assessed on a combination of all 3 learning targets to create the criterion for the assessment score. Students will have demonstrated that they can use words and place value to compare numbers within 100, determining which number is greater than or less than by earning at least 5 out of 8 (75%) accuracy on the summative assessment.]

- b. Provide a graphic (table or chart) or narrative that summarizes student learning for your whole class. Be sure to summarize student learning for all evaluation criteria submitted in Assessment Task 3, Part D.

Table #2- Summative Assessment, Analysis of Patterns Related to Conceptual Understanding, Procedural Fluency and Mathematical Reasoning

CUP/FMR & related problem #'s	# of points possible for learning target	# of students who met target (22 students total)	# of students who didn't meet target (22 students total)
Conceptual Understanding (CU)- problems 1 &	2	17	5
