early modern period by engaging with the humanist discourses of republicanism and stoicism Cadman argues that the texts under study probe various aspects of this dynamic and illuminate the ways in which stoicism and republicanism provide essential frameworks for negotiating this relationship between the marginalized courtier and the absolute sovereign He demonstrates how aristocrats and courtiers such as Sidney Greville Alexander and Cary were able to use the neo Senecan form to consider aspects of their limited political agency under an absolute monarch while others such as Brandon and Daniel respond to similarly marginalized positions within both political and patronage networks In analyzing how these plays illuminate various aspects of early modern political culture this book addresses several gaps in the scholarship of early modern drama and explores new contexts in relation to more familiar writers as well as extending the critical debate to include hitherto neglected authors
